ABSTRACT

The final response rate for Illinois waterfowl hunters to the 2000-2001 Illinois Waterfowl Hunter Survey was 1,857 (70.9%). Hunters reported spending 1,119,048 days afield, a decrease of 24% from the record high 1,472,301 days for the 1999-2000 license year. Waterfowl harvest decreased 10% from 783,195 birds during 1999-2000 to 708,092 during 2000-2001. Duck harvest estimates were as follows: 271,903 mallards, 58,604 wood ducks, and 166,834 other ducks. A total of 38,597 teal were harvested during the early September teal season. Goose hunters harvested 128,387 Canada geese during the regular Canada goose season.

OBJECTIVE

To survey waterfowl (duck, goose, and coot) hunters annually to determine their activities, harvest, characteristics, attitudes, and opinions.

METHODS

A total of 4,822 migratory bird hunters were sampled from the population of Illinois migratory bird hunters registered with the federal Harvest Information Program (HIP). From this initial sample, 2,351 hunters responded to the 2000-2001 Illinois Waterfowl Hunter Survey. This sample represented all migratory bird hunters (including dove hunters) in Illinois and consisted of an estimated 54.3% waterfowl hunters. Of the 2,351 completed surveys received, 1,857 (79%) were from respondents who hunted waterfowl in Illinois during the 2000-2001 seasons. The final response rate for Illinois waterfowl hunters to the 2000-2001 Illinois Waterfowl Hunter Survey was therefore 70.9%. After the season, hunters were mailed a 12-page self-administered questionnaire and a letter of explanation (Appendices A and B). The

questionnaire addressed days afield, harvest, and attitudes toward specific issues related to waterfowl seasons, limits, and management practices. Hunters received a follow-up postcard 10 days after the questionnaire, thanking them for returning their survey questionnaire and reminding nonrespondents to return the completed questionnaire. Nonrespondents received a second questionnaire 10 days after the postcard reminder, followed 10 days later with another postcard. Estimates of number of hunters, days afield, and waterfowl harvested (and confidence intervals) were computed following the procedures outlined in Anderson et al. (1998). Coded data were entered and analyzed using SPSS 6.0. Because the initial sample was “contaminated” with non-waterfowl migratory bird hunters, the long-term (1988-1998) average (87.4%) for percent of respondents hunting waterfowl was used to calculate total waterfowl hunters in 2000-2001.

SEASON LENGTHS AND BAG LIMITS

Hunters enjoyed a 16-day early (September) teal season with a 4-bird daily bag limit, a 14-day/2-bird (or 5-bird) early (September) Canada goose season, a 60-day/6-bird duck season, and a 127,000 statewide Canada goose quota (season dates and lengths varied according to zone). See Appendix C for details of season dates, legal shooting hours, and bag limits.

RESULTS

Waterfowl Harvest and Days Afield

The number of waterfowl hunters decreased from 58,003 during the 1999-2000 season to 56,954 during the 2000-2001 season, which represents a 1.8% decrease in hunters (Table 1). Hunters reported spending 1,119,048 days afield in 2000-2001, a decrease of 24% from the

record high 1,472,301 days afield in 1999-2000. Waterfowl harvest decreased 10% from 783,195 during 1999-2000 to 708,092 during 2000-2001. One-third (34%) of the hunters hunted ducks only, whereas 23% hunted geese only, and 43% hunted both ducks and geese (Table 2).

Teal

The number of early (September) teal hunters decreased 26% from 20,036 during 1999-2000 to 14,733 during 2000-2001 (Table 3). Days afield by teal hunters also decreased, from 74,170 during 1999-2000 to 52,229 during 2000-2001, which represents a 30% decrease. The 2000-2001 hunters harvested 38,597 blue-winged teal (*Anas discors*)/green-winged teal (*A. crecca*), a decrease of 30% from the previous year's harvest. Teal hunters averaged 3.55 days afield in 2000-2001, and they harvested an average of 0.74 teal per hunter per day and 2.62 teal per hunter per season (Table 4).

Youth Waterfowl Hunting Days

The U.S. Fish and Wildlife Service allowed Illinois and the other states to have 2 Youth Waterfowl Hunting Days in 2000-2001. In previous years, beginning in 1996, only 1 day was designated specifically for youths. Thus, the youth hunting program gained substantially in 2000-2001, with 6,815 adults taking 10,107 youths waterfowl hunting (Table 5). In 1999-2000, an estimated 5,505 adults and 8,113 youths participated in the youth hunting program. The youth waterfowl (ducks, geese, and coots combined) harvest increased from 7,035 birds in 1999-2000 to 9,308 in 2000-2001.

Ducks

Total duck hunters decreased by 8,040 (16%), from 51,850 hunters during 1999-2000 to 43,810 during 2000-2001 (Table 6). Duck hunters spent 621,542 days afield during 2000-2001, a decrease of 28% from the 860,368 days reported during 1999-2000. Mallards (*Anas platyrhynchos*) harvested decreased 39,422 (13%) from 311,325 during 1999-2000 to 271,903 during 2000-2001. Harvest of wood ducks (*Aix sponsa*) declined by 11,326 ducks (16%) to 58,604 during the 2000-2001 season. Harvest of other ducks decreased by 14,816 (8.2%) to 166,834 ducks during the 2000-2001 season. Total duck harvest during 2000-2001 was 497,341, 12% less than the 562,905 reported for 1999-2000. Coot (*Fulica americana*) harvest decreased 40%, from 3,654 for the 1999-2000 season to 2,206 for 2000-2001. Duck harvest per hunter per day increased from 0.65 for 1999-2000 to 0.80 for 2000-2001, and duck harvest per hunter per season increased from 10.86 for 1999-2000 to 11.36 for 2000-2001 (Table 7). The duck harvest rates for 2000-2001 were the highest recorded since the Illinois Waterfowl Hunter Survey was initiated in 1981.

Geese

Statewide, 13,289 hunters participated in the early (September) Canada goose season during 2000-2001 (Table 8). The majority of hunters (6,908) were active in the Central Zone. The hunters harvested 15,897 Canada geese throughout Illinois during the early season, with more than half (8,774) being taken in the Central Zone. From 1999-2000 to 2000-2001, the number of September Canada goose hunters decreased 22% (from 16,945 to 13,289), their days afield decreased 26% (from 64,881 to 47,831), and their harvest of Canada geese decreased 21% (from 20,223 to 15,897).

Illinois goose hunters numbered 37,593, and they spent 383,367 days afield, during the regular goose season in 2000-2001 (Table 9). These hunters harvested 128,387 Canada geese during the regular goose season (statewide quota was 127,000). They also harvested 16,356 other geese (of which 14,797 were snow/blue geese, *Chen caerulescens*), for a total combined goose harvest of 144,743 birds. The Southern Illinois Quota Zone lead the state in number of goose hunters (9,849) and number of Canada geese harvested (35,815) (Table 10). However, the Central Quota Zone accounted for the most goose hunting days afield (95,467). Canada goose harvest during the regular season is presented by waterfowl zone and county in Table 11.

Conservation Order Season for Snow/Blue Geese

Twelve percent (6,834) of Illinois' waterfowl hunters participated in the 2000 Conservation Order Season for snow/blue geese (Table 12). Forty-five percent of these hunters were active in the South Zone, 49% were active in the Central Zone, and 6% were active in the North Zone.

In comparison, 10% (5,695) of Illinois' waterfowl hunters participated in the 2001 Conservation Order Season for snow/blue geese. Forty percent of these hunters were active in the South Zone, 55% were active in the Central Zone, and 5% were associated with the North Zone. These hunters reported harvesting 30,236 snow/blue geese statewide, with about half (15,852) being taken in the South Zone. An additional 13,467 geese were harvested in the Central Zone.

The 2001 Conservation Order Season snow/blue goose hunters frequently utilized electronic calls (59%), unplugged shotguns (53%), and after-sunset hunting (60%) (Table 13). The most commonly used hunting tactic was the deployment of decoys on land, which was often

used by 71% of the hunters. However, almost half (47%) of the hunters often engaged in pass shooting, and 38% often attempted to sneak/creep on snow/blue geese.

Hunter Behavior and Attitudes

Areas Hunted

Ninety percent of the duck hunting days afield in 2000-2001 occurred on public areas with no fee (47%) or on noncommercial (private) areas (43%) (Table 14). The duck harvest was proportional, 47% and 43%, respectively. For goose hunting days afield, 55% occurred on noncommercial (private) areas, 25% on public areas with no fee, and 16% on commercial areas. The distribution of goose harvest on these areas was 56%, 18%, and 23%, respectively.

Types of Nontoxic Shot

Almost all of Illinois' waterfowl hunters (95%) used steel shot during the 2000-2001 season (Table 15). However, 18% of the hunters used bismuth shot at least part of the time and 13% used 1 or more of the tungsten shots (tungsten-steel, tungsten-molymer, tungsten-matrix).

Duck Hunting Regulations

About half (51%) of the duck hunters statewide prefer that the 2001-2002 duck season begin on the same dates as the 2000-2001 season (Table 16). However, 47% of the duck hunters in the South Zone prefer that the season begin on a later date. Of those hunters who prefer a later opening date, 49% felt that 1 week later was about right, whereas 50% wanted more than a 1-week delay. Of those who prefer an earlier date, 70% wanted 1 week earlier and 29% wanted the season moved up more than 1 week. With a 60-day season, 53% of the state's duck hunters

prefer a Thursday opening over a Saturday opening. This feeling prevailed in the North Zone (57%) and in the South Zone (62%), but not in the Central Zone (49%) (Table 17). If the season has to be reduced to 45 days, a plurality of hunters (40%) prefer taking 7-8 days from both the beginning and the end of the season (Table 18).

Overwhelming majorities of the duck hunters prefer that the boundaries that separate the North and Central Zone (90%) and the Central and South Zones (89%) remain unchanged (Table 19). If zone boundaries are changed, 59% of the duck hunters thought it important to have hunter input via public meetings (Table 20). In addition, 51% of the hunters felt that the Illinois Waterfowl Hunter Survey was an important vehicle for determining the new boundaries.

Majorities of duck hunters (54%), September Canada goose hunters (59%), and all waterfowl hunters (54%), prefer opening the early teal season on September 1—concurrently with early Canada goose season--and running for 16 days (Table 21). However, a majority of the early teal hunters (52%) prefer a September 8 opening--1 week after opening of the early Canada goose season--and running for 16 days.

The vast majority of waterfowl hunters (86%) support continuing with the 2-day youth waterfowl hunting program next year (Table 22).

Rotating-Wing Decoys

Battery-operated rotating wing decoys were used by 61% of duck hunters statewide in 2000-2001 (Table 23). The practice was most common in the Central Zone, where 69% of duck hunters used these decoys. Of the hunters who used rotating-wing decoys, 37% always, 48% often, and 15%, rarely did so. Almost all (96%) duck hunters thought rotating-wing decoys were effective at least part of the time. Nearly two-thirds (62%) of the hunters felt it moderately/very

important to use rotating-wing decoys in order to compete with other hunters (Table 24). Similarly, 62% of the hunters thought rotating-wing decoys moderately/very important in providing an advantage over traditional decoys.

Of those duck hunters who did not use rotating-wing decoys, 55% believed they were too expensive; 55% also expressed a preference for using traditional duck hunting methods (Table 25). If rotating-wing decoys are found to increase duck harvest and lead to shorter seasons, most (60%-76%) duck hunters would support prohibiting their use.

September Canada Goose Season

When asked to give reasons for participating in the September Canada goose season, an overwhelming majority of hunters (89%) listed "to extend my hunting opportunities" as moderately/very/extremely important (Table 26). Majorities of the hunters also listed "to hunt geese while teal hunting" (54%), "to improve my shooting" (54%), and "to decrease local goose populations" (53%) as moderately/very/extremely important.

If Illinois is given enough of a quota for Canada geese, majorities of goose hunters (53%-78%) prefer having a 9-15 day September Canada goose season (Table 27). When presented with possible tradeoffs between having a September Canada goose season, a larger quota, and longer or shorter seasons, majorities of goose hunters prefer continuing with a 9-15 day September season (Table 28).

Regular Goose Season

Vast majorities of goose hunters in the North (84%) and Central Zones (71%) rejected the idea of having a split goose season (Table 29). However, if a split season is adopted,

majorities of hunters in these zones (66% and 55%, respectively) prefer that the season encompass the first 9 days of the duck season, close, and then reopen at a later date. In the South Zone, a plurality of hunters (46%) would like to see the goose season open after Thanksgiving and run straight through the closing date (Table 30).

In the Southern Illinois Quota Zone, majorities of hunters (72%), their days afield (58%), and goose harvest (70%) took place on commercial (fee charged, public or private) areas (Table 31). The percentages for non-commercial areas were 37%, 42%, and 30%, respectively.

Characteristics of Waterfowl Hunters

Waterfowl hunters who were active in Illinois during the 2000-2001 season were primarily in-state residents (93.5%). The remaining 6.5% were non-residents--i.e., were residents of other states. Resident hunters averaged 45 years of age, with 46% of them being between 31 and 50 years old. They have hunted waterfowl for an average of 23 years, and the vast majority of them (84%) hunt waterfowl every year. Sixty percent of residents hunted on private land, and 38% hunted on public land, during the 2000-2001 season. Twenty-one percent of resident hunters reported hunting waterfowl in another state during 2000-2001, with the states most frequently visited being Arkansas, Wisconsin, Missouri, and North Dakota. The vast majority of resident waterfowl hunters (84%) felt the telephone system for registering with the Harvest Information Program (HIP) was easy or very easy to use. Additional information relating to the characteristics of Illinois waterfowl hunters is summarized in Table 32.

Reasons for Hunting

Sportspersons are attracted to waterfowl hunting for a variety of reasons. These reasons

are enumerated in Tables 33 and 34.

Table 12. Please answer the following questions about snow goose hunting in Illinois. Please note: "Snow geese" also includes Ross' and Blue geese.

Did you hunt snow geese during the 2000 conservation order season (after Canada goose season closed)?

Yes 12%^a (6,834 hunters)

If "Yes," in which zone did you hunt?

North	6%
Central	49%
South	45%

Did you hunt snow geese during the 2001 conservation order season (after Canada goose season closed)?

Yes 10%^a (5,695 hunters)

If "Yes," in which zone did you hunt?

North	5%
Central	55%
South	40%

How many total snow geese did you harvest?

North Zone	31
Central Zone	13,467
South Zone	15,852
Unknown	886
Statewide	30,236

Which of the following past seasons did you hunt snow geese?

Spring 2000 conservation season	71%	(3,801 hunters)
1999-00 regular season	41%	(2,192 ")
Spring 1999 conservation season	46%	(2,469 ")
1998-99 regular season	27%	(1,470 ")
1997-98 regular season	24%	(1,276 ")
1996-97 regular season	17%	(888 ")

^a Percentage of 2000-01 waterfowl hunters.

Table 13. Please indicate which of the following methods you used to hunt snow geese **during the 2001 conservation order season** (Illinois).

Electronic calls	59% ^a
Unplugged shotgun	53%
Hunting from sunset to ½ hour after sunset	60%

How often did you use the following techniques when hunting snow geese during the conservation order season?

	<u>Often</u>	<u>Rarely</u>	<u>Never</u>
Sneaking/creeping	38% ^a	15%	47%
Decoying over water	31%	13%	55%
Decoying over land	71%	11%	18%
Pass shooting	47%	21%	33%
Battery operated rotating-wing decoys	7%	5%	88%

^aPercentage of snow goose hunters.

Table 14. Waterfowl hunting activity on public and private lands in Illinois 2000-01^a (n=2,351).

Type of Area	Total Counties ^b	Days Hunted				Harvest			
		Ducks	%	Geese	%	Ducks	%	Geese	%
Public Area No Fee	75	225,781	47	73,411	25	178,364	47	20,223	18
Public Area with Daily Fee	30	10,800	2	10,876	4	8,754	2	3,730	3
Commercial (daily, weekly, or seasonal fee)	45	38,826	8	48,053	16	24,030	8	24,656	23
Noncommercial (private club or private land no fee)	92	205,731	43	164,272	55	166,696	43	60,716	56

^aTotal days and harvest do not equal totals reported in previous tables due to missing data for areas hunted.

^bFor itemized list of counties hunted and number of hunters per county, see Appendixes D-G.

Table 15. Which of the following shot types did you use during the 2000 waterfowl season? Check all that apply (Illinois 2000-01).

	Percentage Response
Steel	95%
Bismuth	18%
Tungsten	13%
Other	<1%

Table 16. When would you prefer duck season to begin for the 2001-2002 season? Assume a 60-day season (Illinois).

	Statewide	North Zone	Central Zone	South Zone
Earlier	22%	32%	22%	16%
Same as 2000-01	51%	50%	55%	37%
Later	27%	18%	23%	47%
If "Earlier," how much?				
1 week	70%	49%	71%	61%
More than 1 week	29%	49%	28%	37%
Undefined	1%	2%	1%	2%
If "Later," how much?				
1 week	49%	45%	57%	36%
More than 1 week	50%	55%	42%	62%
Undefined	1%	0%	1%	2%

Table 17. Which would you prefer for the starting day of duck season with a 60-day season (Illinois 2000-01)?

	Statewide	North Zone	Central Zone	South Zone
Start on Thursday	53%	57%	49%	62%
Start on Saturday	47	43	51	38

Table 18. Assuming a 45-day season, what would you prefer for the reduction of the 2001-2002 duck season (Illinois)?

	Statewide	North Zone	Central Zone	South Zone
Take all 15 days from the beginning of the season	38%	35%	34%	53%
Take all 15 days from the end of the season	22%	23%	23%	20%
Take 7-8 days from both the beginning and end of the season	40%	42%	43%	27%

Table 19. What is your opinion of the current boundaries for duck hunting in Illinois (2000-01)?

	Stay The Same	Move North	Move South
North/Central Zone	90%	3%	7%
Central/South Zone	89%	7%	4%

Some areas located near zone boundaries contain shallow water and freeze earlier than other waters in the zone. Do you support moving these areas into zones that have earlier seasons to allow hunters opportunity to hunt in years when early freezing occurs?

Yes	42%
No	58%

If you answered “Yes,” would you support the proposed changes in the question above if they resulted in complex zone lines based on county or township roads?

Yes	73%
No	27%

Table 20. Every 5 years states are allowed to draw new zone boundaries. How do you think this process should be done (Illinois 2000-01)?

	Most Important				Least Important	
	1	2	3	4	5	
Hunter input at public meetings	39%	20%	16%	11%	14%	
Waterfowl hunter advisory committees	23%	21%	25%	16%	14%	
Illinois DNR should decide	14%	13%	19%	22%	32%	
Leave the boundaries where they are	48%	7%	9%	9%	27%	
Illinois waterfowl hunter survey	26%	25%	22%	17%	9%	

Table 21. For **early teal season**, which of the following would you prefer (Illinois 2000-01)?

	Percentage Response
All Waterfowl Hunters	
Open September 1 with goose season and running for 16 days	54%
Open September 8 one week after goose season and running for 16 days	46%
Duck Hunters	
Open September 1 with goose season and running for 16 days	54%
Open September 8 one week after goose season and running for 16 days	46%
September Teal Hunters	
Open September 1 with goose season and running for 16 days	48%
Open September 8 one week after goose season and running for 16 days	52%
September Canada Goose Hunters	
Open September 1 with goose season and running for 16 days	59%
Open September 8 one week after goose season and running for 16 days	41%

Table 22. Do you support continuing the second day for Youth Waterfowl Hunting Days next year (Illinois 2000-01)?

	Percentage Response
Yes	86%
No	14%

Table 23. Did you use a battery-operated rotating-wing decoy while duck hunting in 2000-2001 (Illinois)?

	Statewide	North Zone	Central Zone	South Zone
Yes	61%	40%	69%	59%
How often did you use a battery-operated rotating wing decoy?				
Always	37%	24%	41%	34%
Often	48%	49%	47%	49%
Rarely	15%	27%	12%	17%
How effective do you feel rotating-wing decoys are in bringing ducks into shooting range?				
Not effective	4%	7%	3%	5%
Effective less than ½ time	20%	25%	18%	23%
Effective about ½ time	42%	37%	43%	44%
Effective more than ½ time	28%	27%	30%	24%
Effective all the time	6%	4%	6%	4%

Table 24. Please indicate the importance of the following reasons why you use rotating-wing decoys by circling the appropriate number (1 for Not Important to 4 for Very Important) (Illinois 2000-01).

	Not Important	Slightly Important	Moderately Important	Very Important
To compete with other hunters using them	23%	16%	23%	39%
To bring birds into shooting range	6%	15%	30%	49%
They provide an advantage over traditional decoys	12%	25%	38%	24%
They add movement to my decoys	4%	6%	27%	63%
To avoid skybusting	29%	9%	16%	47%
To lure in difficult birds	14%	20%	31%	36%

Table 25. If you **do not use** rotating-wing decoys, what are your reasons for not doing so? Please check all that apply (Illinois 2000-01).

	Statewide	North Zone	Central Zone	South Zone
They're against my sense of fair chase	26%	26%	26%	25%
They're too expensive	55%	49%	55%	65%
I don't approve of any mechanical devices for duck hunting	24%	25%	24%	21%
Too much extra equipment to carry	28%	26%	28%	31%
I prefer traditional duck hunting methods	55%	56%	57%	50%
Others	6%	9%	5%	4%
If rotating-wing decoys are found to increase duck harvest and <u>lead to 30-day duck seasons</u> would you support prohibiting their use? (2000-2001 season was 60 days)				
Yes	74%	74%	73%	76%
If rotating-wing decoys are found to increase duck harvest and <u>lead to 45-day duck seasons</u> would you support prohibiting their use? (2000-2001 season was 60 days)				
Yes	62%	64%	60%	64%

Table 26. How important are the following as reasons why you hunt geese during the September Canada Goose Season (Illinois 2000-01)?

	Not Important	Slightly Important	Moderately Important	Very Important	Extremely Important
To sharpen my calling skills	36%	15%	24%	16%	9%
To extend my hunting opportunities	6	4	16	29	44
To scout for fall goose hunting	43	17	20	11	9
To work my dog	45	7	12	18	18
To hunt geese while teal hunting	36	10	16	16	22
To hunt geese in warmer weather	54	12	14	9	11
Because geese are easier to shoot	63	15	16	3	3
To decrease the local goose population	33	14	17	14	22
To focus on duck hunting during the regular season	51	17	19	8	5
To improve my shooting	32	14	23	15	16

Table 27. When our Canada goose quotas were large enough for maximum season length (107 days) Illinois offered a 9-15 day September season with the remaining days in the regular season. If we are given enough of a quota, which of the following would you prefer? (Remaining days will be part of regular season Oct.-Jan.). Sample sizes are in parentheses (2000-01).

	September Goose Hunters (474)	Regular Season Goose Hunters (1,289)	All Goose Hunters			
			NZ (301)	CZ (700)	SZ (424)	Statewide (1,384)
15 day September season	54%	31%	52%	36%	18%	33%
9 day September season	24%	22%	23%	24%	18%	22%
4 day September season	8%	8%	7%	8%	8%	8%
2 day September season	2%	2%	1%	2%	3%	2%
No September season	12%	37%	17%	30%	53%	35%

Table 28. Geese harvested during the September season do not count towards our quota. If Illinois eliminated the September Canada goose season it is possible 3-4 years later this would allow for a larger quota during the regular season (Oct.-Jan.). In the meantime (without the September season), geese shot during the regular season may otherwise have been shot in September, causing regular season quotas to be reached earlier. Given this information, what is your opinion about continuing the September Canada goose season? Sample sizes are in parentheses (2000-01).

	September Goose Hunters (472)	Regular Season Goose Hunters (1,368)	All Goose Hunters			
			NZ (298)	CZ (691)	SZ (419)	Statewide (1,367)
Continue to offer a 9-15 day September season	82%	55%	79%	60%	38%	57%
Discontinue the September season	18%	45%	21%	40%	62%	43%

Table 29. Would you prefer a split goose season in Illinois (2000-01)?

	North Zone Goose Hunters	Central Zone Goose Hunters
Yes	16%	29%
No	84%	71%
How would you prefer the split goose season to run compared with duck season?		
First weekend with duck, then close and later reopen goose season	34%	45%
9 days (includes first 2 weekends with duck) then close and later reopen goose season.	66%	55%

Table 30. For the **South Zone**, which would you prefer for the opener for Canada goose season for fall 2001? (Season must close January 31) (Illinois 2000-01).

	Rend Lake Quota Zone	Southern IL Quota Zone	Remainder of South Zone	Entire South Zone
Split season: open with duck for 4 days, reopen after Thanksgiving (same as 2000)	17%	21%	26%	22%
Open season similar to 1999 (after Thanksgiving and run straight through closing date)	50%	42%	52%	46%
Open in mid-December and run straight through closing date	33%	37%	22%	32%

Table 31. If you hunted in the **Southern Illinois Quota Zone** in 2000-01, what type of areas did you hunt?

County	Hunters	Days Afield	Geese Harvested
Non-commercial area	37%	42%	30%
Commercial area	72	58	70

Table 32. The following questions are important to help us understand more about the people involved in waterfowl hunting in Illinois. Please tell us something about yourself by checking the responses that apply (2000-01).

What is your county of residence?

Residents of Illinois	1,736 (93.5%) ^a
Non-residents	121 (6.5%) ^a

Please give your age.

	<u>Residents</u>	<u>Non-residents</u>
Mean	45 years	47 years
Distribution:		
≤15 years	2%	2%
16-20 “	4%	1%
21-30 “	12%	10%
31-40 “	21%	23%
41-50 “	25%	26%
51-60 “	21%	18%
61-64 “	5%	9%
≥65 “	10%	12%

How many years have you hunted waterfowl?

	<u>Residents</u>	<u>Non-residents</u>
Mean	23 years	25 years
Distribution:		
≤5 years	19%	14%
6-10 “	13%	9%
11-20 “	18%	21%
21-30 “	20%	27%
31-40 “	15%	14%
≥41 “	14%	14%

How many years have you hunted waterfowl in Illinois?

	<u>Residents</u>	<u>Non-residents</u>
Mean	22 years	11 years
Distribution:		
1-5 years	21%	44%
6-10 “	13%	23%
11-20 “	20%	20%
21-30 “	19%	7%
31-40 “	15%	4%
≥41 “	12%	2%

Which of the following describes how often do you hunt waterfowl?

	<u>Residents</u>	<u>Non-residents</u>
Every year	84%	85%
Most years	12%	9%
Some but not most years	5%	6%

Table 32. Continued – page 2.

If you don't hunt every year, do you buy an Illinois Duck Stamp each year?

	<u>Residents</u>	<u>Non-residents</u>
Yes	69%	33%

Where did you hunt most often during 2000-2001?

	<u>Residents</u>	<u>Non-residents</u>
Private land	60%	76%
Public land	38%	19%
Both	2%	5%

How would you rate yourself as a waterfowl hunter?

	<u>Residents</u>	<u>Non-residents</u>
Novice	13%	6%
Intermediate	48%	46%
Advanced	39%	48%

How does the amount of waterfowl you harvest compare with other hunters you know?

	<u>Residents</u>	<u>Non-residents</u>
Much less	19%	13%
Slightly less	21%	20%
Same	32%	29%
Slightly more	22%	27%
Much more	6%	11%

Did you hunt waterfowl in a state other than Illinois during the 2000-01 waterfowl season?

	<u>Residents</u>	<u>Non-residents</u>
Yes	21%	78%
Number of states:		
1	82%	66%
2	14%	27%

^b25 other states.

^c16 other organizations.

^d5 other organizations.

Table 33. **Attitudes Toward Waterfowl Hunting.** Please rate the following reasons why you hunt on a scale of “Not Important” to “Extremely Important” (Illinois 2000-01).

	Not Important	Slightly Important	Moderately Important	Very Important	Extremely Important
Waterfowl hunting is a central part of my life	4%	10%	22%	27%	37%
To learn about wildlife	6	12	28	33	21
To control waterfowl populations	22	18	26	20	14
To harvest waterfowl	8	16	34	25	17
Waterfowl hunting is a fun activity	1	1	7	27	64
To share my experience with friends	3	4	13	32	48
To feel close to nature and the land	2	4	17	33	44
To get away from day-to-day life	3	4	13	29	51
To remain a part of the heritage of waterfowl hunting	3	4	15	29	49
To share my skills and knowledge with others	5	9	24	28	34
For the independence	10	10	26	26	28
To share my experience with family	6	10	19	25	40
To observe wildlife	1	3	17	35	45
To maintain a rural American tradition	6	9	19	27	39
For the challenge	3	5	16	31	45
To provide meat for myself and family	28	20	27	12	13
To work with my dog	38	8	12	16	26
Waterfowl hunting is my favorite activity	5	10	21	24	39
To develop my skills	6	9	29	29	27
To maintain a family tradition	19	15	20	20	26
To interact with other hunters	7	7	20	32	34
To spend time outdoors	<1	1	7	26	66

Table 34. Please state if you agree or disagree with the following statements by circling the number that matches your response (Illinois 2000-01).

	Strongly Disagree	Disagree	Not Sure	Agree	Strongly Agree
Hunting is one of the most important activities in my life.	1%	4%	4%	35%	56%
I spend a lot of time in the off-season planning for the hunt.	2	12	9	47	31
I am disappointed when I have no game to show for my efforts.	22	45	10	17	6
I plan vacation time around hunting seasons.	6	12	5	38	39
Some of my best days of hunting have been when I come home empty-handed.	4	14	13	44	25
I try to have the best hunting equipment available.	2	18	13	45	23
Hunting determines much of my lifestyle.	4	20	13	38	25
Waterfowl hunting is a test of skill.	1	3	8	50	37
My closest friends are hunters.	1	6	6	42	45
I spend a lot of time before the season scouting the area I will hunt.	5	23	15	40	17
I enjoy introducing new people to the sport.	3	8	14	48	27
It is important to have equipment for different hunting conditions.	1	2	5	51	42
Seeing waterfowl is important for a satisfying hunt.	1	7	5	47	40
Having the right equipment is an important part of the hunt.	1	3	6	55	35
I would rather go hunting than do any other recreation activity.	1	9	13	29	48
If I cannot find anyone to hunt with me I will often hunt alone.	4	13	6	40	37
I am disappointed if I do not get any shooting at waterfowl while hunting.	15	39	16	24	6
I hunt waterfowl for the challenge.	2	8	10	54	27
It takes skill to be a successful waterfowl hunter.	1	2	6	48	43

Illinois Waterfowl Hunter Survey

2000 – 2001 Season

ALL RESPONSES ARE CONFIDENTIAL

THANK YOU FOR YOUR COOPERATION!

Postage-paid return envelope provided

Illinois Department of Natural Resources
Division of Wildlife Resources
and the
Illinois Natural History Survey

The Department of Natural Resources is requesting disclosure of information that is necessary to accomplish the statutory purpose as outlined under the Illinois Compiled Statutes, The Wildlife Code, Chapter 520. Disclosure of information is voluntary.

Please take 30 minutes of your time to complete this questionnaire. Your responses will tell us more about Illinois waterfowl hunters and important issues concerning waterfowl hunters in Illinois.

Section 1. Waterfowl Harvest and Days Afield. Please complete this questionnaire for the past hunting season (September 2000 - March 2001). Include only the waterfowl harvested and days hunted IN ILLINOIS. List only your own hunting activities. Count part of a day as a whole day.

1. Did you hunt waterfowl in Illinois during the 2000-2001 season?

_____ Yes (Please report harvest in following tables)

_____ No (please go to **question 3**)

DUCK HUNTING

- Note: **DO NOT include September teal season here**
- **DO NOT include days if ducks were killed while goose hunting**

County	Number of Days Hunted	Teal (exclude Sept. season)	Mallards	Wood Ducks	Canvas-backs	Other Ducks	Coots	Ducks downed but not retrieved

GOOSE HUNTING

- Note: **DO NOT include September goose season here**
- **DO NOT include days if geese were killed while duck hunting**

County	Number of Days Hunted	Canada Geese (exclude Sept. seas.)	Snow /Blue Geese (reg. season only)	White-fronted (Specklebelly) Geese	Other Geese (Brant, etc.)	Geese downed but not retrieved

2. Please list the counties, days hunted and harvest for the following types of areas.

	County	Days Hunted		Harvest	
		Ducks	Geese	Ducks	Geese
Public Area No Fee	_____	_____	_____	_____	_____
	_____	_____	_____	_____	_____
	_____	_____	_____	_____	_____
Public Area with Daily Fee	_____	_____	_____	_____	_____
	_____	_____	_____	_____	_____
	_____	_____	_____	_____	_____
Commercial (daily, weekly, or seasonal fee)	_____	_____	_____	_____	_____
	_____	_____	_____	_____	_____
	_____	_____	_____	_____	_____
Noncommercial (private club or private land no fee)	_____	_____	_____	_____	_____
	_____	_____	_____	_____	_____
	_____	_____	_____	_____	_____

3. When would you prefer duck season to begin for the 2001-2002 season? Assume a 60-day season.

_____ earlier How much earlier? _____ 1 week _____ more than 1 week
 _____ same as 2000
 _____ later How much later? _____ 1 week _____ more than 1 week

4. Assuming a 45-day season, what would you prefer for the reduction of the 2001-2002 duck season?

_____ take all 15 days from the beginning of the season
 _____ take all 15 days from the end of the season
 _____ take 7-8 days from both the beginning and end of the season

5. Which would you prefer for the starting day of duck season with a 60-day season?

_____ Thursday _____ Saturday

6. For early Teal season, which of the following would you prefer? (**Note:** Goose must close September 15)

_____ Opening September 1 with goose season and running for 16 days
 _____ Opening September 8 one week after goose season and running for 16 days

7. Did you hunt teal during the 2000 September teal season? _____ Yes _____ No

7a. If "Yes," please state how many days you hunted and teal harvested in the 2000 September teal season.

_____ Days hunted _____ Teal harvested

8. Did you take a youth hunting during the 2000 Youth Waterfowl Hunting Days?

_____ Yes _____ No

8a. If you answered "Yes," how many youths did you take? _____ youths

8b. Did you hunt both of the Youth Waterfowl Hunting Days? _____ Yes _____ No

If "No," which day did you hunt? _____ first day only _____ second day only

8c. How many waterfowl did the youth harvest?

_____ ducks 1st day _____ geese 1st day _____ coots 1st day

_____ ducks 2nd day _____ geese 2nd day _____ coots 2nd day

9. Do you support continuing the second day for Youth Waterfowl Hunting Days next year?

_____ Yes _____ No

10. Which of the following shot types did you use during the 2000 waterfowl season? Check all that apply.

_____ steel _____ bismuth

_____ tungsten _____ other (please list): _____

Section 2. Duck Hunting Please answer the following questions regarding **duck hunting in Illinois.**

1. What is your opinion of the current boundaries for duck hunting in Illinois? (See enclosed map) Circle the answer that matches your response.

	Stay the Same	Move North	Move South
North/Central Zone	1	2	3
Central/South Zone	1	2	3

2. Some areas located near zone boundaries contain shallow water and freeze earlier than other waters in the zone. Do you support moving these areas into zones that have earlier seasons to allow hunters opportunity to hunt in years when early freezing occurs?

_____ Yes _____ No

2a. If you answered "Yes," would you support the proposed changes in question 2 above if they resulted in complex zone lines based on county or township roads?

_____ Yes _____ No

3. Every 5 years states are allowed to draw new zone boundaries. How do you think this process should be done? **Please rate "1" for most important "5" for least important.**

_____ hunter input at public meetings _____ waterfowl hunter advisory committees

_____ Illinois DNR should decide _____ leave the boundaries where they are

_____ Illinois Waterfowl Hunter Survey

Section 3. Rotating-Wing Decoys Please answer the following questions about your use of rotating-wing decoys. **Note:** "Rotating wing decoy" refers to decoys that sit on poles and wings rotate by battery power.

1. Did you use a battery-operated rotating-wing decoy while duck hunting in 2000-2001?

_____ Yes _____ No (Please go to **question 2**)

1a. How often did you use a battery-operated rotating wing decoy?

_____ Always _____ Often _____ Rarely

1b. How effective do you feel rotating-wing decoys are in bringing ducks into shooting range? Please circle the number that matches your response.

Not Effective	Effective less than ½ time	Effective about ½ time	Effective more than ½ time	Effective all the time
1	2	3	4	5

2. If you **do not use** rotating-wing decoys, what are your reasons for not doing so? Please check all that apply.

- _____ They're against my sense of fair chase
 _____ They're too expensive
 _____ I don't approve of any mechanical devices for duck hunting
 _____ Too much extra equipment to carry
 _____ I prefer traditional duck hunting methods
 _____ Other (Please identify): _____

3. If rotating-wing decoys are found to increase duck harvest and lead to 30-day duck seasons would you support prohibiting their use? (2000-2001 season was 60 days)

_____ Yes _____ No

4. If rotating-wing decoys are found to increase duck harvest and lead to 45-day duck seasons would you support prohibiting their use? (2000-2001 season was 60 days)

_____ Yes _____ No

5. Please indicate the importance of the following reasons why you use rotating-wing decoys by circling the appropriate number.

	<u>Not</u> <u>Important</u>	<u>Slightly</u> <u>Important</u>	<u>Moderately</u> <u>Important</u>	<u>Very</u> <u>Important</u>
To compete with other hunters using them	1	2	3	4
To bring birds into shooting range	1	2	3	4
They provide an advantage over traditional decoys	1	2	3	4
They add movement to my decoys	1	2	3	4
To avoid skybusting	1	2	3	4
To lure in difficult birds	1	2	3	4

Section 4. September Canada Goose Season Please answer the following questions regarding **September goose hunting in Illinois.**

1. Did you hunt Canada geese during the September season (September 2 – 15, 2000)?

_____ Yes (please go to **question 2**) _____ No (please go to **question 3**)

2. If you answered “Yes” for question 1, please give the number of days, county or counties, and harvest for September Canada Goose season.

Early Canada Goose Season

Days Hunted	County	Geese Harvested

3. When our Canada goose quotas were large enough for maximum season length (107 days) Illinois offered a 9-15 day September season with the remaining days in the regular season. If we are given enough of a quota, which of the following would you prefer? (Remaining days will be part of regular season Oct.-Jan.)

_____ 15 day September season _____ 2 day September season
 _____ 9 day September season _____ No September season
 _____ 4 day September season

4. How important are the following as reasons why you hunt geese during the September Canada Goose Season? Please circle the appropriate response.

	<u>Not Important</u>	<u>Slightly Important</u>	<u>Moderately Important</u>	<u>Very Important</u>	<u>Extremely Important</u>
To sharpen my calling skills	1	2	3	4	5
To extend my hunting opportunities	1	2	3	4	5
To scout for fall goose hunting	1	2	3	4	5
To work my dog	1	2	3	4	5
To hunt geese while teal hunting	1	2	3	4	5
To hunt geese in warmer weather	1	2	3	4	5
<hr/>					
Because geese are easier to shoot	1	2	3	4	5
To decrease the local goose population	1	2	3	4	5
To focus on duck hunting during the regular season	1	2	3	4	5
To improve my shooting	1	2	3	4	5

5. Geese harvested during the September season do not count towards our quota. If Illinois eliminated the September Canada goose season it is possible 3-4 years later this would allow for a larger quota during the regular season (Oct.-Jan.). In the meantime (without the September season), geese shot during the regular season may otherwise have been shot in September, causing regular season quotas to be reached earlier. Given this information, what is your opinion about continuing the September Canada goose season?

_____ Continue to offer a 9-15 day September season

_____ Discontinue the September season

Section 5. Regular Goose Season Please answer the following questions regarding **regular season (Oct. – Jan.) goose hunting in Illinois.**

1. Would you prefer a split goose season in Illinois?

_____ Yes

_____ No

1a. If “Yes,” please check the zone(s) you would like to see have a split goose season.

_____ North

_____ Central

1b. How would you prefer the split goose season to run compared with duck season?

_____ first weekend with duck, then close and later reopen goose season

_____ 9 days (includes first 2 weekends with duck) then close and later reopen goose season

2. If you hunted in the **Southern Illinois Quota Zone** in 2000-2001, what type of areas did you hunt?

Area	Days Hunted	Geese Harvested
Non-commercial Area (No charge, public <u>or</u> private)	_____	_____
Commercial (Fee charged, public <u>or</u> private)	_____	_____

3. For the **South Zone**, which would you prefer for the opener for Canada goose season for fall 2001? (Season must close January 31)

_____ split season: open with duck for 4 days, reopen after Thanksgiving (same as 2000)

_____ open season similar to 1999 (after Thanksgiving and run straight through closing date)

_____ open in mid-December and run straight through closing date

Section 6. Snow Goose Hunting Please answer the following questions about snow goose hunting in Illinois
 Please note: "Snow geese" also includes Ross' and Blue geese.

1. Did you hunt snow geese during the **2000 conservation order season** (after Canada goose season closed)?
 _____ Yes _____ No

1a. If "Yes," in which zone did you hunt? _____ North _____ Central _____ South

2. Did you hunt snow geese during the **2001 conservation order season** (after Canada goose season closed)?
 _____ Yes _____ No

2a. If "Yes," in which zone did hunt? _____ North _____ Central _____ South

3. How many total snow geese did you harvest? _____ snow geese

4. Please indicate which of the following methods you used to hunt snow geese **during the 2001 conservation order season** and your harvest using each method.

	Used	Did Not Use
Electronic Calls	1	2
Unplugged shotgun	1	2
Hunting from sunset to ½ hour after sunset	1	2

5. How often did you use the following techniques when hunting snow geese during the conservation order season?

Hunting Technique	Often	Rarely	Never
Sneaking/creeping	1	2	3
Decoying over water	1	2	3
Decoying over land	1	2	3
Pass Shooting	1	2	3
Battery-operated rotating-wing decoys	1	2	3

6. Which of the following past seasons did you hunt snow geese? Please check all that apply.

- | | |
|---------------------------------------|--|
| _____ spring 2000 conservation action | _____ 1999-2000 regular season |
| _____ spring 1999 conservation action | _____ 1998-99 regular season |
| _____ 1997-98 regular season | _____ 1996-97 regular season or before |

Section 7. Attitudes Toward Waterfowl Hunting Please rate the following reasons why you hunt on a scale of “Not Important” to “Extremely Important”. Circle the number that matches your response.

	<u>Not Important</u>	<u>Slightly Important</u>	<u>Moderately Important</u>	<u>Very Important</u>	<u>Extremely Important</u>
Waterfowl hunting is a central part of my life	1	2	3	4	5
To learn about wildlife	1	2	3	4	5
To control waterfowl populations	1	2	3	4	5
To harvest waterfowl	1	2	3	4	5
Waterfowl hunting is a fun activity	1	2	3	4	5
<hr/>					
To share my experience with friends	1	2	3	4	5
To feel close to nature and the land	1	2	3	4	5
To get away from day-to-day life	1	2	3	4	5
To remain a part of the heritage of waterfowl hunting	1	2	3	4	5
To share my skills and knowledge with others	1	2	3	4	5
<hr/>					
For the independence	1	2	3	4	5
To share my experience with family	1	2	3	4	5
To observe wildlife	1	2	3	4	5
To maintain a rural American tradition	1	2	3	4	5
For the challenge	1	2	3	4	5
To provide meat for myself and family	1	2	3	4	5
<hr/>					
To work with my dog	1	2	3	4	5
Waterfowl hunting is my favorite activity	1	2	3	4	5
To develop my skills	1	2	3	4	5
To maintain a family tradition	1	2	3	4	5
To interact with other hunters	1	2	3	4	5
To spend time outdoors	1	2	3	4	5

Section 8. Waterfowl Hunting Experience The following questions are important to help us understand more about the people involved in waterfowl hunting in Illinois. Please tell us something about yourself by checking the responses that apply.

1. What is your county of residence? _____ County
2. Please give your age. _____ years
3. How many years total have you hunted waterfowl? _____ years
4. How many years have you hunted waterfowl in Illinois? _____ years
5. Which of the following describes how often do you hunt waterfowl? Choose one.
_____ every year _____ most years _____ some but not most years
- 5a. If you don't hunt every year, do you buy an Illinois Duck Stamp each year?
_____ Yes _____ No
6. Where did you hunt most often during 2000-2001? _____ Private land _____ Public land
7. How would you rate yourself as a waterfowl hunter?
_____ Novice _____ Intermediate _____ Advanced
8. How does the amount of waterfowl you harvest compare with other hunters you know?
_____ Much less _____ Slightly less _____ Same _____ Slightly more _____ Much more
9. Did you hunt waterfowl in a state other than Illinois during the 2000-2001 waterfowl season?
_____ Yes What state(s) did you hunt? _____
_____ No
10. Do you make any equipment for waterfowl hunting?
_____ Yes Please identify: _____
_____ No
11. Approximately how many days do you spend preparing for waterfowl hunting ("preparing" includes training dogs, working on boats, decoys, etc., scouting areas to hunt, etc.)?
_____ none _____ 11-20days _____ 31-40 days
_____ 1-10 days _____ 21-30 days _____ More than 40 days
12. Do you belong to any national, state, or local waterfowl hunting/waterfowl conservation organizations?
_____ Yes Please identify: _____
_____ No

13. Please rate the ease of using the telephone to register with the Harvest Information Program (HIP).

_____Very easy _____ Easy _____Hard _____Very hard _____Didn't use

14. Did you hunt doves, woodcock, snipe, or rails during the 2000-2001 season? _____ Yes _____No

Please state if you agree or disagree with the following statements by circling the number that matches your response.

	Strongly Disagree	Disagree	Not Sure	Agree	Strongly Agree
Hunting is one of the most important activities in my life.	1	2	3	4	5
I spend a lot of time in the off-season planning for the hunt.	1	2	3	4	5
I am disappointed when I have no game to show for my efforts.	1	2	3	4	5
I plan vacation time around hunting seasons.	1	2	3	4	5
Some of my best days of hunting have been when I come home empty-handed.	1	2	3	4	5
I try to have the best hunting equipment available.	1	2	3	4	5
Hunting determines much of my lifestyle.	1	2	3	4	5
Waterfowl hunting is a test of skill.	1	2	3	4	5
My closest friends are hunters.	1	2	3	4	5
I spend a lot of time before the season scouting the area I will hunt.	1	2	3	4	5
I enjoy introducing new people to the sport.	1	2	3	4	5
It is important to have equipment for different hunting conditions.	1	2	3	4	5
Seeing waterfowl is important for a satisfying hunt.	1	2	3	4	5
Having the right equipment is an important part of the hunt.	1	2	3	4	5
I would rather go hunting than do any other recreation activity.	1	2	3	4	5
If I cannot find anyone to hunt with me I will often hunt alone.	1	2	3	4	5
I am disappointed if I do not get any shooting at waterfowl while hunting.	1	2	3	4	5
I hunt waterfowl for the challenge.	1	2	3	4	5
It takes skill to be a successful waterfowl hunter.	1	2	3	4	5

COMMENTS

**RETURN ENVELOPE IS PROVIDED – POSTAGE-PAID
THANK YOU FOR YOUR TIME AND ASSISTANCE!**

Your input will help us understand more about hunters and hunting in Illinois.

The Illinois Department of Natural Resources receives federal assistance and therefore must comply with federal anti-discrimination laws. In compliance with the Illinois Human Rights Act, the Illinois Constitution, Title VI of the 1964 Civil Rights Act, Section 504 of the Rehabilitation Act as amended, and the U.S. Constitution, the Illinois Department of Natural Resources does not discriminate on the basis of race, color, sex, national origin, age, or disability. If you believe you have been discriminated against in any program, activity, or facility, please contact the Equal Employment Opportunity Officer, Department of Natural Resources, 524 S. Second St., Springfield, IL 62701-1787, (217) 782-7616 or the Officer of Human Resources, U.S. Fish and Wildlife Service, Washington, D.C. 20240.

Appendix B

Dear Waterfowl Hunter,

You are one of a select group of waterfowl hunters asked to provide information about your hunting activities during the 2000-2001 season. . Please complete and return the enclosed questionnaire about your waterfowl harvest and activities in Illinois during the 2000-2001 waterfowl hunting season **even if you were not successful.**

The information you and other selected hunters furnish our biologists is vital for proper waterfowl management and allows us to safeguard waterfowl populations while maximizing hunting opportunities.

This survey is limited to those hunters selected. Please take 15 minutes to complete the enclosed questionnaire. A postage-paid envelope is provided for returning the questionnaire to us.

Thank you for your time and assistance.

Sincerely,

Jeffrey M. Ver Steeg
Chief, Wildlife Resources

Appendix C

DUCKS & EARLY CANADA GEESE

SPECIES	DATES (Inclusive)	HOURS	DAILY BAG LIMIT	POSSESSION LIMIT
Teal	Sept. 2-Sept. 17 (Statewide)	Sunrise to Sunset	4	8
Ducks	North Zone Oct. 19-Dec. 17	1/2 hour before sunrise to sunset	6 (See section on Bag Limits)	2 x daily bag limit
Mergansers	Central Zone Oct. 28-Dec. 26		5 (See section on Bag Limits)	2 x daily bag limit
Coots	South Zone Nov. 9-Jan. 7		15	30
Early Canada Geese	Sept. 2-Sept. 15 (Northeast Zone only)		5*	10
Early Canada Geese	Sept. 2-Sept. 15 (North, Central & South Zones ^a)		2*	4

* Daily bag limit is five in Northeast Canada Goose Zone and two in the South Zone and that portion of the North & Central Zones outside the Northeast Canada Goose Zone.

^a Includes Rend Lake and Southern IL Quota Zones.

YOUTH WATERFOWL HUNTING DAYS*

SPECIES	DATES	HOURS	DAILY BAG LIMIT	
Ducks	North Zone Oct. 7-8	1/2 hour before sunrise to sunset	6 (See section on Bag Limits)	
Mergansers			5 (See section on Bag Limits)	
Coots			15	
Canada Geese			Central Zone Oct. 14-15	2
Snow Geese			South Zone Oct. 28-29	20
White-fronted Geese				2
Brants				1

***Youth Waterfowl Hunting Day Regulations**

1. Youth hunters must be 15 years of age or younger and must have a hunting license and HIP registration number unless hunting on property where they reside.
2. Only geese, ducks, mergansers and coots may be taken in addition to other game in season.
3. An adult at least 18 years of age must accompany the youth hunter into the field. This adult cannot hunt geese, ducks, coots or mergansers but can participate in other open seasons.

Bag Limit - DUCKS - Bag limits on ducks are established by a conventional bag limit as follows: The basic daily bag limit shall be 6 ducks of any species, (except mergansers); however, no more than 4 shall be mallards (no more than 2 hen mallards) and not more than 3 scaup, 2 wood ducks, 2 redheads, and not more than 1 pintail, 1 black duck and 1 canvasback. The daily bag limit for all mergansers is 5, only 1 of which may be a hooded merganser. The possession limit for ducks and mergansers is twice the daily bag limit.

GEESE		DATES (Inclusive)	HOURS	DAILY BAG LIMIT	POSSESSION LIMIT
Canada Geese (a)					
North & Northern IL Quota Zone	Oct. 19-Jan. 17	1/2 hour before sunrise to sunset	3	10	
Central & Central IL Quota Zone	Oct. 28-29 & Nov. 4-Jan. 31				2, except Dec. 1-Jan. 31 bag limit is 3
South Zone	Nov. 9-12 & Nov. 24-Jan. 31	1/2 hour before sunrise to sunset	2, except Jan. 1-Jan. 31 bag limit is 3		
Southern IL & Rend Lake Quota Zone		1/2 hour before sunrise to 3 p.m.(b)			
Snow/Blue & Ross' Geese and Brant (a)					
North & Northern IL Quota Zone	Oct. 19-Jan. 17	1/2 hour before sunrise to sunset	20 Snow/Blue & Ross' Geese 1 Brant	Unlimited Snow/Blue & Ross' Geese 2 Brant	
Central & Central IL Quota Zone	Oct. 28-Jan. 31				
South Zone	Nov. 9-Jan. 31				
Southern IL & Rend Lake Quota Zone	Nov. 9-Jan. 31	1/2 hour before sunrise to 3 p.m.(b)			
White-fronted Geese (a)					
North & Northern IL Quota Zone	Oct. 24-Jan. 17	1/2 hour before sunrise to sunset	2	4	
Central & Central IL Quota Zone	Nov. 7-Jan. 31				
South Zone	Nov. 9-Jan. 31				
Southern IL & Rend Lake Quota Zone	Nov. 9-Jan. 31	1/2 hour before sunrise to 3 p.m.(b)			

- (a) The DNR will close the Canada goose, snow/blue and Ross' goose, brant and white-fronted goose season early in a quota zone and the entire zone within which a quota zone lies by giving 48 hours notice when quotas are reached in a quota zone. Call toll-free, 1-877-249-3679 for information on season closures. Entire zones will be closed as the following quota zones reach their quotas, respectively: Northern Illinois Quota Zone will close the North Zone; Central Illinois Quota Zone will close the Central Zone; Rend Lake Quota Zone AND Southern Illinois Quota Zone combined will close the South Zone.
- (b) During Jan. 29, 30 and 31 hunting hours end at sunset.

Appendix D

Number of waterfowl hunters per county who used public areas with no fee (n=2,351).

County	Number of Hunters	County	Number of Hunters
Fulton	58	Alexander	7
