OBJECTIVE

To survey waterfowl (duck, goose, and coot) hunters annually to determine their activities, harvest, characteristics, attitudes, and opinions.

ABSTRACT

A total of 1,602 (33% response rate) Illinois waterfowl hunters returned usable questionnaires to the 2022-23 Illinois Waterfowl Hunter Survey. An estimated 36,419 adult waterfowl hunters spent ≥ 1 day afield during 2022-23, a decrease of 15.0% from 42,839 hunters during the 2021-22 seasons. Waterfowl hunters spent 778,576 days afield, a decrease of 22.2% from the 1,000,494 days devoted during the 2021-22 license year. Total estimated waterfowl harvest decreased 10.1%, from 543,858 during 2021-22 seasons to 489,094 during 2022-23. Duck harvest estimates for the regular duck season were as follows: 152,698 mallards (*Anas platyrhynchos*), 35,815 wood ducks (*Aix sponsa*), and 125,330 other ducks. A total of 23,122 teal (*Spatula discors* and *Anas crecca*) were harvested during the September teal season. Goose hunters harvested 94,139 Canada geese (*Branta canadensis*) during the regular Canada goose season, a 5.2% decrease from the 99,276 Canada geese harvested during the 2021-22 regular goose season. Hunters harvested 16,598 Canada geese during the September Canada goose season, a 25.4% decrease from the previous year. During the Youth Waterfowl Hunting Season, 4,521 adults took 6,593 youths waterfowl hunting, a 16.4% decrease in adult participation and a 3.9% decrease in youth participation from the 2021-22 Youth Waterfowl Hunting Season. Hunter preferences for seasons and satisfaction with the waterfowl seasons are also discussed.

METHODS

Mailings

A random sample of 5,000 waterfowl hunters was drawn from the population of Illinois State Waterfowl Stamp purchasers from the 2021-22 license year. On 14 March 2023, hunters were mailed an 8-page questionnaire (Appendix A), cover letter (Appendix B), and a postage-paid return envelope. The effective sample was reduced from 5,000 questionnaires to 4,882 due to 118 being returned as undeliverable. A thank

you/reminder postcard (Appendix C) was sent to hunters on 10 April 2023. Non-respondents were mailed a second questionnaire and cover letter (Appendix D) on 28 April 2023, followed by a second postcard mailing on 19 May 2023. A third and final questionnaire and cover letter (Appendix E) were mailed to non-respondents on 8 June 2023. Coded data were entered and analyzed using SPSS 29.0 (SPSS Inc. 2022). Confidence intervals are presented where appropriate.

Statewide Estimates

Estimates of number of hunters, days afield, and waterfowl harvested were based on confirmed sales of 47,156 adult resident Illinois Migratory Waterfowl stamps (2022-23 series) and were computed following the procedures outlined below (Anderson et al. 1998), with slight modification. The correction factors for multiple stamp buyers (A_1) and stamp exempt hunters (A_2) were removed beginning with the estimates of 2016-17 (Williams et al. 2018). The original formulas are presented for understanding how previous year's estimates were created.

The total number of active waterfowl hunters was estimated using the number of Illinois Migratory Waterfowl Stamps sold. The number of teal, duck, and goose hunters ($Hunt_{sp}$), days afield ($Days_{sp}$), birds crippled but not retrieved ($Crip_{sp}$) and harvest ($Harv_{sp}$) were calculated as follows:

$$Hunt_{sp} = Hunt_r \frac{L_t}{n}$$

$$Days_{sp} = Days_r \frac{L_t}{n}$$

$$Crip_{sp} = Crip_r \frac{L_t}{n}$$

$$Harv_{sp} = Harv_r \frac{L_t A}{n}$$

Where:

$Hunt_r$ = number of respondents to the 2022-23 Illinois Waterfowl Hunter Survey who reported hunting for each species (adjustment for non-hunters is inherent),

L_t = total number of Illinois migratory Waterfowl Stamps sold in 2022-23,

n = number of respondents to 2022-23 Illinois Waterfowl Hunter Survey who purchased a stamp,

$Days_r$ = total number of days spent hunting reported by respondents,

$Crip_r$ = total number of birds crippled but not retrieved reported by respondents,

$Harv_r$ = total harvest of each species reported by respondents,

A_3 = fixed reduction factor for reporting bias [0.501 for teal, ducks, and coots (Anderson 1985); 0.478 for geese (Anderson et al. 1996, Miller et al. 2018)].

Confidence intervals for the estimated numbers of ducks, coots, and geese harvested were calculated by:

$$95\% CI [Harv_{sp}] = \pm 2L_t \left(\frac{s}{\sqrt{n}} \right) \left(\frac{L_t - n}{L_t} \right)$$

Where s = standard deviation of total species harvest reported by respondents.

SEASON LENGTHS AND BAG LIMITS

Illinois incorporated a fourth waterfowl zone in 2011-12 for the regular waterfowl seasons and 2012-13 for the September goose season. The four zones are the North, Central, South Central, and South zones (Appendix G). The early (September) teal (*Spatula discors* and *Anas crecca*) season length was 16 days with a daily bag of 6 teal. Early (September) Canada goose (*Branta canadensis*) season length and start date (1 September) were the same for all four zones. Hunters could hunt for 15 days statewide and could harvest 5 geese a day in the North and Central zones and 2 birds per day in the South Central and South zones. Length and daily bag limit of the regular duck season did not change (60-day season/6-bird daily bag limit) during 2022-23. Basic daily bag limits were 6 ducks, 5 mergansers, and 15 coots; individual species limits are in Appendix H. Regular Canada goose season length in the North and Central zones was 90 days, and 81 days and

60 days in the South Central and South zones, respectively. Daily bag limit was 3 for Canada geese, 2 for White-fronted geese (*Anser albifrons*), and 1 for Brant geese (*Branta bernicla*). All species listed above had a possession limit of 3 times the daily bag limit. Light geese (*Anser caerulescens* and *Anser rossii*) had a daily limit of 20 and no possession limit.

RESULTS

Waterfowl Harvest and Days Afield

We received 1,602 usable questionnaires (i.e., respondents completed at least a portion of the questionnaire), for an overall response rate of 33%. Ninety-four percent of respondents indicated they had purchased an Illinois State Waterfowl Stamp for the 2022-23 season (Figure 1) and 1,187 (79.6%) of license purchasers reported hunting 1 day or more for waterfowl (Figure 2). Most respondents (62.1%) reported they hunt waterfowl every year in Illinois, whereas 1.7% reported they never hunted waterfowl in Illinois (Figure 3). Over forty percent of respondents (42.6%) hunted fewer days during the 2022-23 waterfowl seasons compared to the last 5 years (Figure 4). Only 14.8% of respondents have ever purchased an Illinois State Waterfowl Stamp without intending to hunt during the waterfowl season in Illinois (Figure 5). Almost half of respondents (48.9%) who purchased a waterfowl stamp without intending to hunt do so every year, 24.7% purchase stamps most years, 15.3% purchase stamps on occasional years, and 11.1% rarely purchase stamps for this purpose (Figure 6). The most common reasons for purchasing an Illinois State Waterfowl Stamp without intending to hunt were: (1) support wetland and grassland conservation (71.3%), (1) support wildlife conservation (69.6%), (3) support birding, nature photography and other recreation (19.8%), (4) other reasons (19.4%), and (5) collect waterfowl stamps (16.9%; Figure 7).

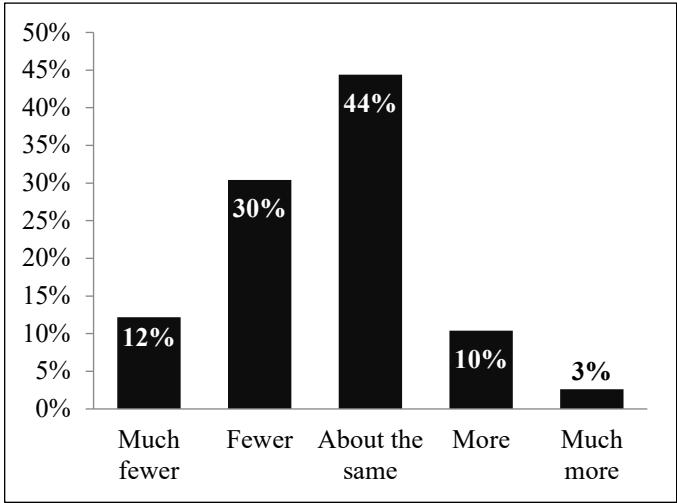

Figure 4. Number of days hunted during the 2022-23 waterfowl season compared to the last 5 years ($n = 1,183$).

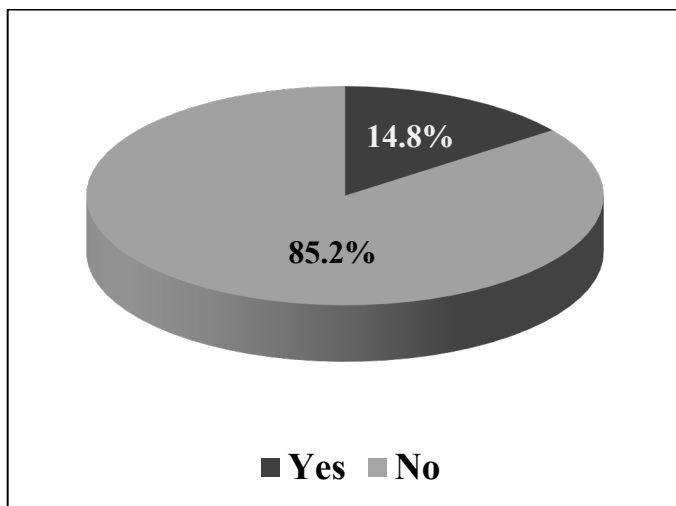

Figure 5. Respondents who purchased an Illinois State Waterfowl Stamp without intending to hunt during waterfowl season ($n = 1,602$)

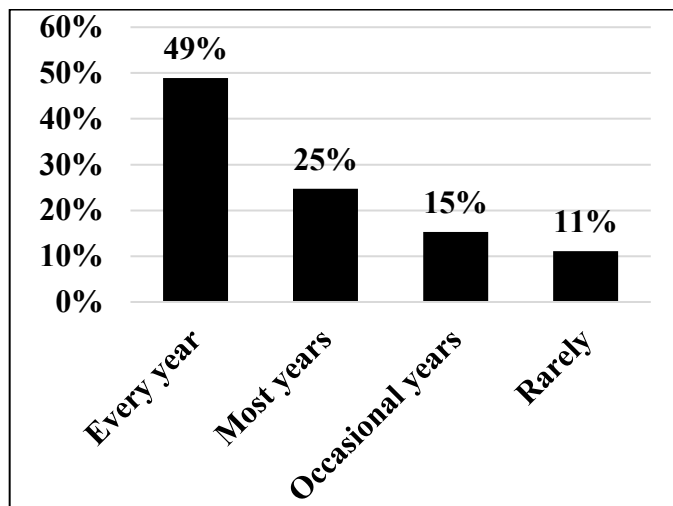

Figure 6. Frequency of purchasing an Illinois State Waterfowl Stamp without intending to hunt during the waterfowl season in Illinois ($n = 235$).

* Cases selected for those who indicated they have ever purchased an Illinois State Waterfowl Stamp without intending to hunt during the waterfowl season in Illinois.

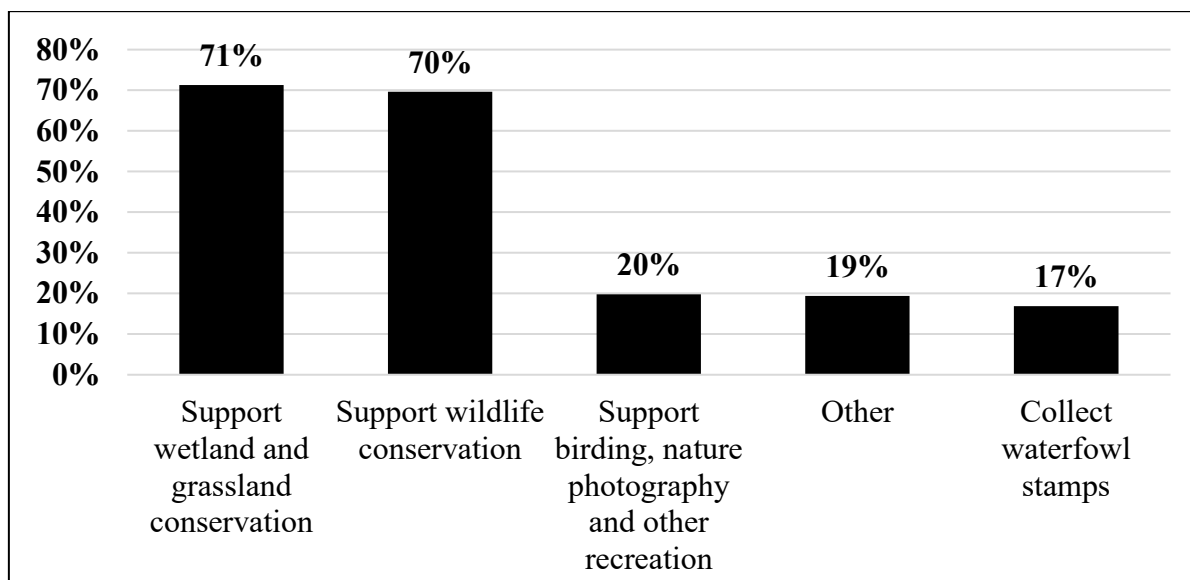

Figure 7. Reason for purchasing an Illinois State Waterfowl Stamp without intending to hunt during the waterfowl season ($n = 237$).

* Cases selected for those who indicated they have ever purchased an Illinois State Waterfowl Stamp without intending to hunt during the waterfowl season in Illinois.

The number of active waterfowl hunters (hunted ≥ 1 day(s) during waterfowl season) decreased from 42,839 during the 2021-22 season to 36,419 during the 2022-23 season, a 15.0% decrease in the number of hunters (Figure 8, Table 1). Hunters reported spending 778,576 days afield, a decrease of 22.2% from the 1,000,494 days devoted during the 2021-22 license year. Total waterfowl harvest decreased 10.1%, from 543,858 during 2021-22

to 489,094 during the 2022-23 season (Table 1). Twenty-nine percent (28.7%) of hunters targeted ducks only, 10.8% targeted geese only, and 60.5% targeted both ducks and geese (Figure 9, Table 2).

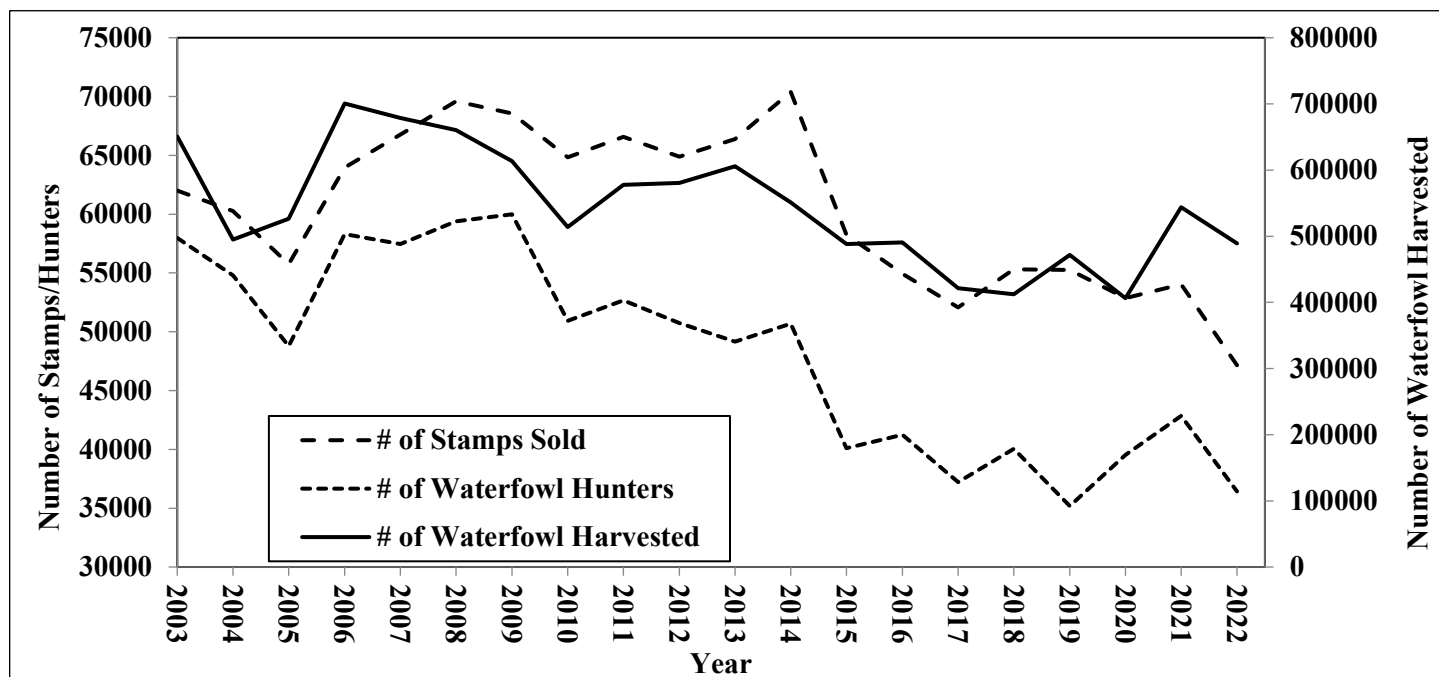

Figure 8. Number of stamps sold, waterfowl hunters, and waterfowl harvested in Illinois, 2003-2022.

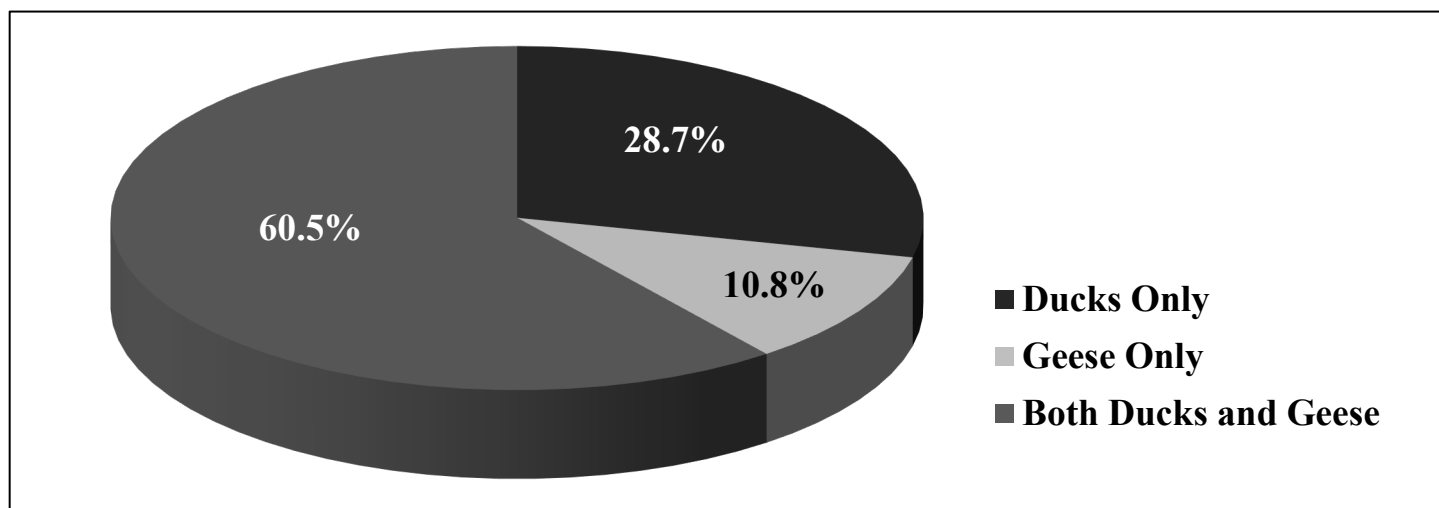

Figure 9. Respondents who hunted ducks, geese, or both during the 2022-23 Illinois waterfowl season.

September Teal Season

The number of early (September) teal season hunters decreased 24.4% from 11,382 during 2021 to 8,602 during 2022 (Figure 10, Table 3). Days afield decreased 32.8% from 50,585 during 2021 to 33,970 during 2022. Decreased days afield coincided with a decreased teal harvest of $23,122 \pm 9,926$ during the 2022

September teal season, a 20.0% decrease from the 2021 harvest (28,913). The Central zone accounted for over one-half of teal hunters (54.7%), teal harvested (65.2%), and teal hunter days afield (59.8%; Table 4). The North zone recorded the second-most days afield, hunters, and total teal harvested. September season teal hunters averaged 3.95 days afield statewide, and harvested an average of 0.68 teal per hunter per day and 2.69 teal per hunter for the season (Figure 11, Table 5).

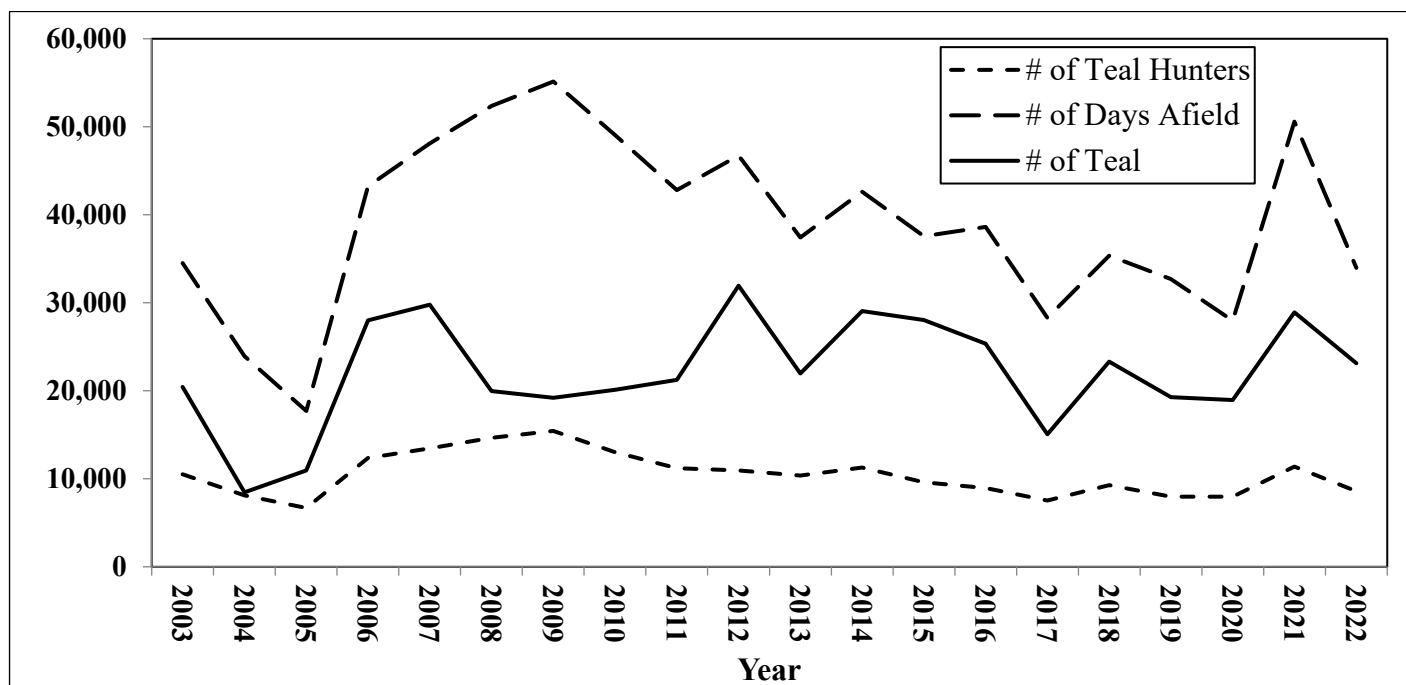

Figure 10. Number of teal harvested and hunter activity during the Illinois September teal season, 2003-2022.

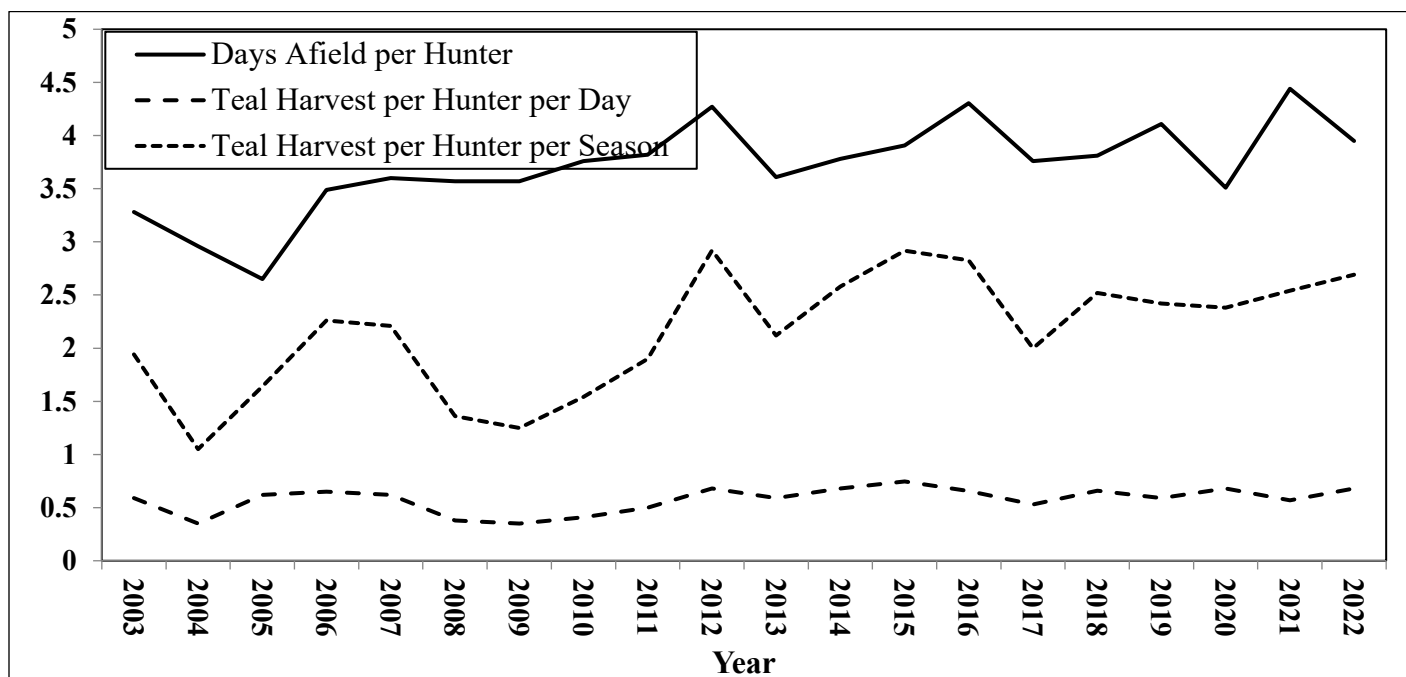

Figure 11. Rates of teal harvest and hunter activity during the Illinois September teal season, 2003-2022.

Youth Waterfowl Hunting

The Youth Waterfowl Season dates changed in all 4 zones; number of days to hunt remained unchanged between the 2021 and 2022 seasons. Youth aged ≤ 17 were able to hunt ducks, geese, and coots for two days one week prior to opening of the regular duck season in the North, Central, and South Central zones, but two weeks earlier in the South zone. Ten percent (9.9%) of those who purchased an Illinois waterfowl stamp took a youth hunting during the Youth Waterfowl Hunting Days (Figure 12). The number of adults who participated in the 2022 youth hunt decreased 16.4% from 5,410 to 4,521 participants and the number of youth participants decreased 3.9% from 6,859 during 2021 to 6,593 youths during the 2022 youth hunt (Table 6). Forty-five percent (44.7%) of hunting groups who participated in the 2022 youth waterfowl season had at least one youth who had never hunted ducks or geese before (Figure 13), and 11.3% of hunters indicated this was their first time accompanying a youth during the hunt (Figure 14). Forty-seven percent of respondents (47.4%) take a youth hunting each year during the youth waterfowl season, 29.3% take a youth hunting most but not every year, and 23.3% occasionally take a youth hunting. Harvest of ducks during the youth season increased 12.2%, from 9,820 during 2021 to 11,026 during 2022, and geese decreased 18.0% from 1,738 to 1,426 from the 2021 to 2022 seasons.

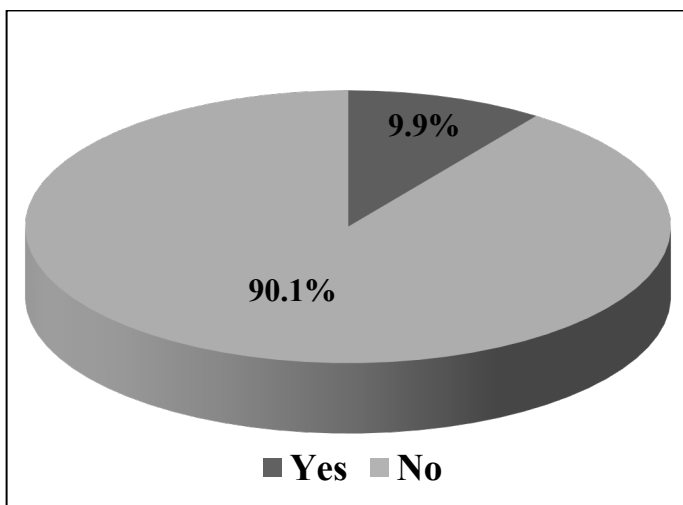

Figure 12. Hunters* who took a youth (≤ 17 years old) hunting during the 2022 Youth Waterfowl Hunting Days ($n = 1,502$).

*Cases selected for those who indicated they purchased a stamp for the 2022-23 waterfowl seasons.

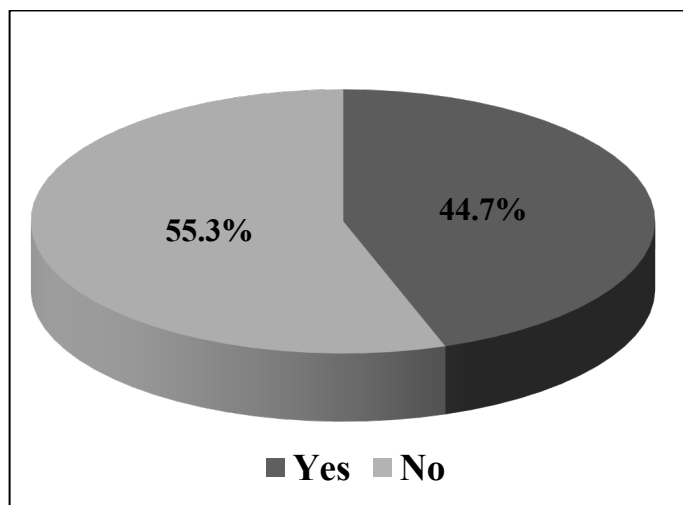

Figure 13. Hunters* who took at least one youth (≤ 17 years old) hunting for the first time ($n = 150$).

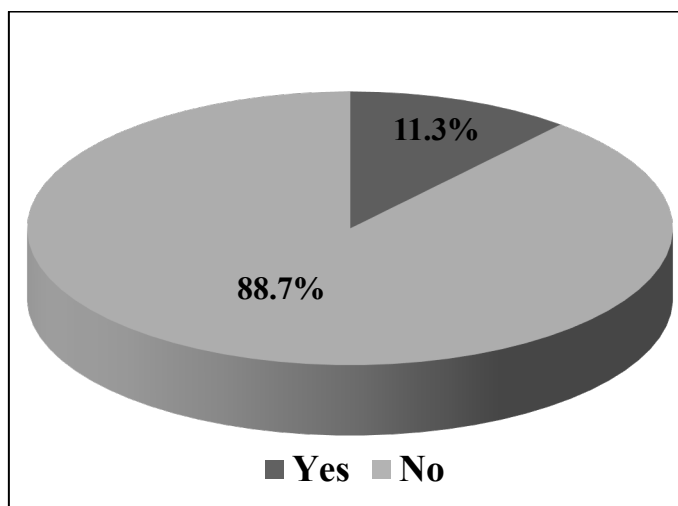

Figure 14. Hunters* for whom it was their first time taking a youth (≤ 17 years old) hunting ($n = 150$).

*Cases selected for those who indicated they took a youth hunting during the 2022 Youth Waterfowl Hunting Days.

Regular Duck Season

The number of duck hunters decreased by 5,595 (15.0%) from 37,399 during the 2021-22 season to 31,804 in the 2022-23 season (Table 7). Duck hunters spent 426,633 days afield ($\bar{X} = 13.41$) during the 2022-23 season, a decrease of 19.9% from the 532,635 days reported during the 2021-22 season. The largest proportion of respondents (46.1%) hunted waterfowl in the Central zone most often, followed by the North (33.3%), South Central (13.0%), and South (7.5%) zones (Figure 15).

Total duck harvest during 2022-23 was 315,558, a decrease of 12.5% from the duck harvest reported for 2021-22 (360,698; Table 7). Mallards (*Anas platyrhynchos*) comprised 48.4% of the total regular season duck harvest, whereas wood ducks (*Aix sponsa*) and other ducks accounted for 11.3% and 40.3%, respectively (Figure 16). Statewide mallard harvest in Illinois decreased by 22,867 birds (13.0%) from 175,565 during the 2021-22 season to 152,698 during the 2022-23 season (Figure 17, Table 7). Wood duck harvest decreased 7,036 (16.4%) from 42,851 ducks during 2021-22 to 35,815 during 2022-23. The harvest of other ducks decreased 16,953 (11.9%) from 142,283 during 2021-22 to 125,330 during 2022-23, and statewide coot (*Fulica americana*) harvest decreased from 3,688 during 2021-22 to 3,429 coots during 2022-23.

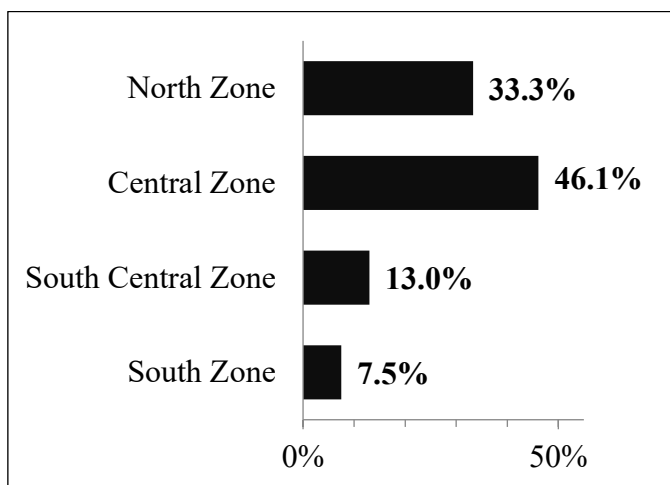

Figure 15. Zones hunters* hunted in most often during the 2022-23 waterfowl seasons ($n = 1,188$).

*Cases selected for those who indicated they hunted for at least one day during the 2022-23 waterfowl seasons.

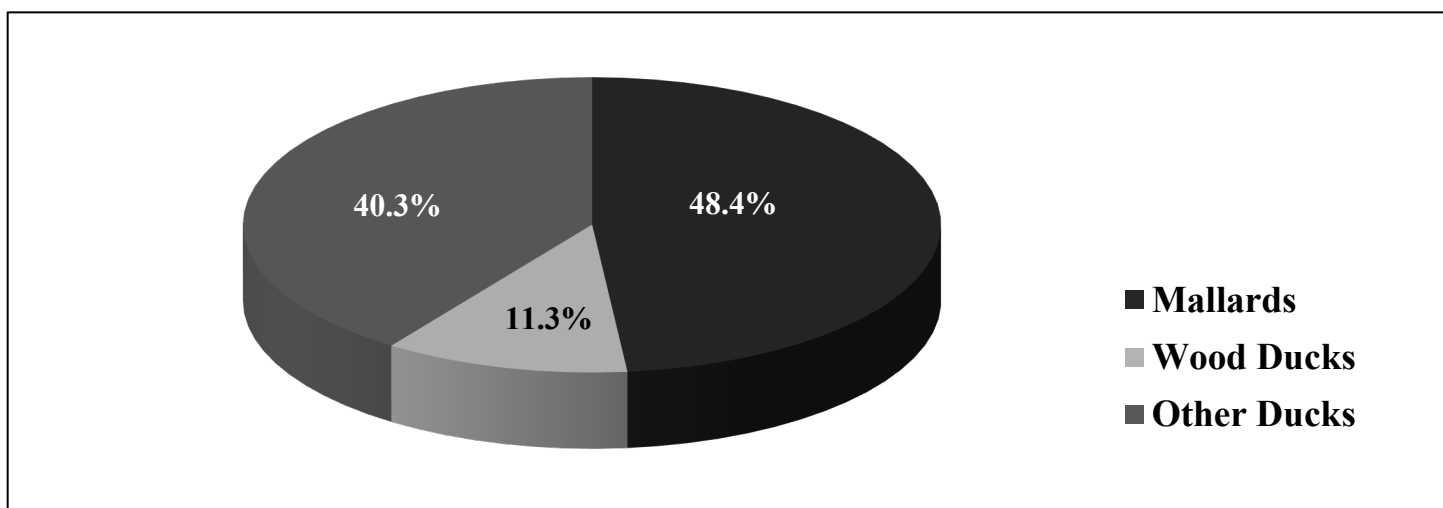

Figure 16. Proportion of mallards, wood ducks, & other ducks harvested during the 2022-23 regular duck season. Proportions are by mallard, wood duck, and other ducks due to how hunters are asked to report their harvest. This order (mallard, wood duck, and other ducks) is not necessarily the order of the most-often harvested ducks in Illinois.

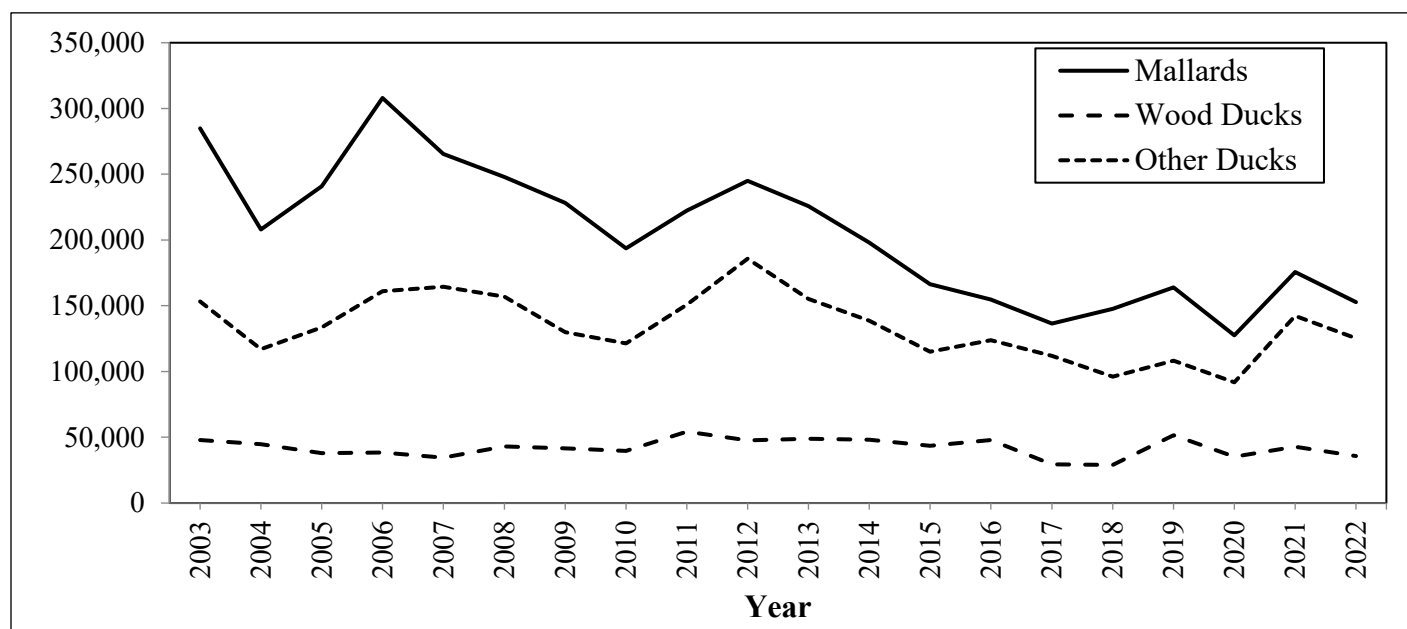

Figure 17. Illinois regular duck season harvest, 2003-2022.

The 2022-23 duck harvest is presented by waterfowl zones in Table 8. Across the four waterfowl zones, the greatest number of hunters, days afield, and ducks harvested occurred in the Central zone. The Central zone had both the greatest daily success rate (harvest/hunter/day) at 0.83 ducks per day and season success rate (harvest/hunter/season) at 10.55 ducks per season. Duck hunter daily success statewide increased from 0.68 ducks/day for the 2021-22 season to 0.74 ducks/day during the 2022-23 season and hunter season success increased from 9.64 ducks/hunter/season for the 2021-22 season to 9.92 during the 2022-23 season (Figure 16, Table 9). Of duck hunters who reported hunting ≥ 1 day ($n = 1,013$), 35.2% hunted ≤ 5 days; 14.4% of duck hunters reported not harvesting any ducks, whereas 7.5% harvested greater than 30 ducks (Figure 19, Table 10).

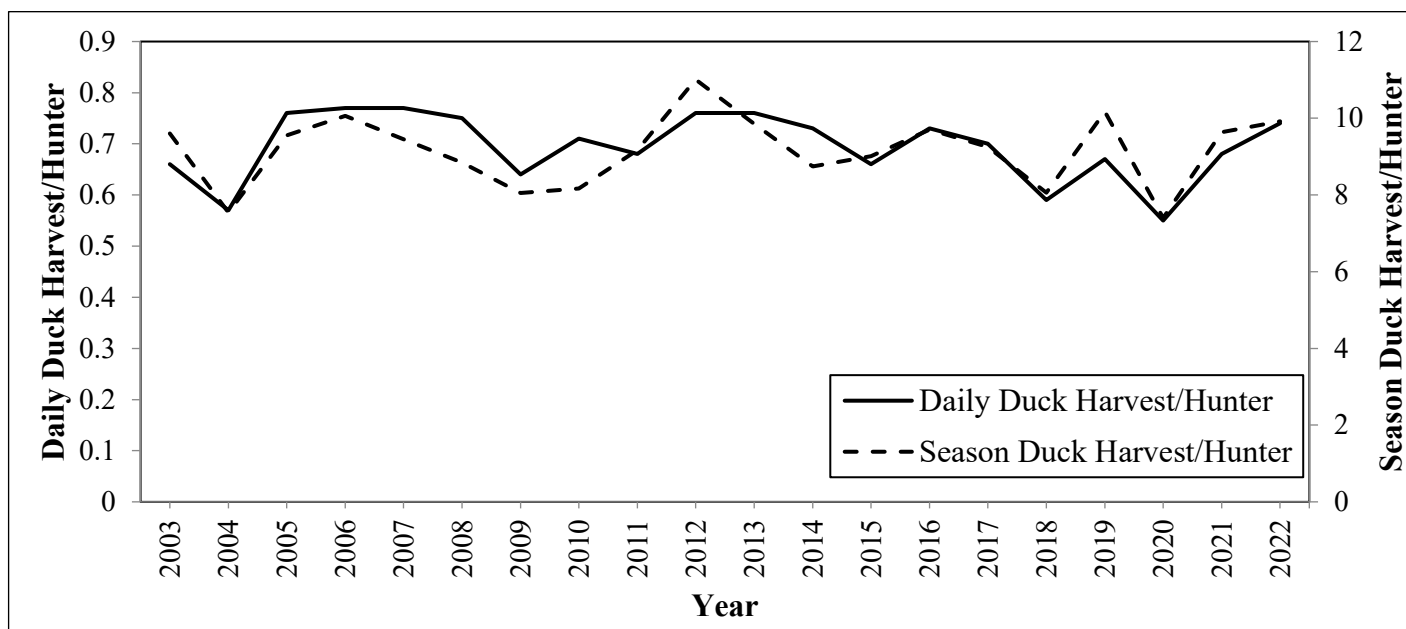

Figure 18. Illinois regular duck harvest by hunters per day and season, 2003-2022.

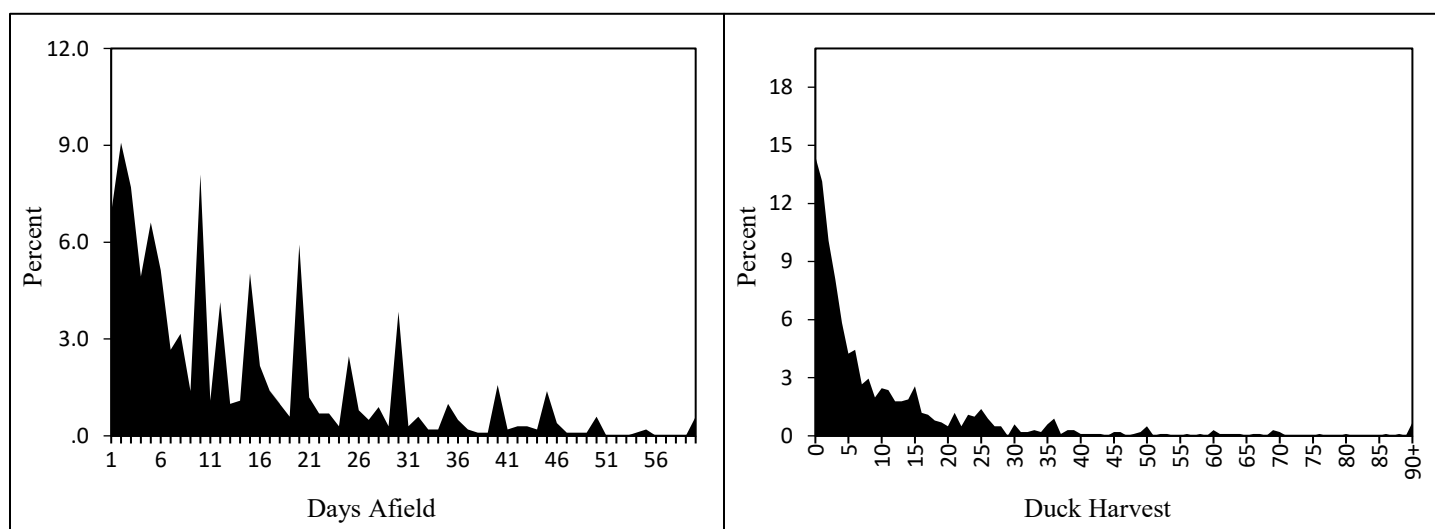

Figure 19. Distribution of days afield per hunter and ducks harvested per hunter in Illinois during the 2022-23 regular duck season.

Early September Goose Season

An estimated 9,387 hunters participated in the early (September) Canada goose season in Illinois during the 2022 season, a decrease of 20.8% from the 11,855 who participated during 2021 (Figure 20, Table 11). Statewide, early goose season hunters spent 33,656 days afield in 2022, 33.5% less than 2021 (50,585), and harvested approximately 16,598 Canada geese, a decrease from the 2021 harvest (22,258) by 25.4%. The Central zone accounted for the most hunters (47.5%), days afield (48.9%) and harvested Canada geese (46.1%; Figure 21, Table 11).

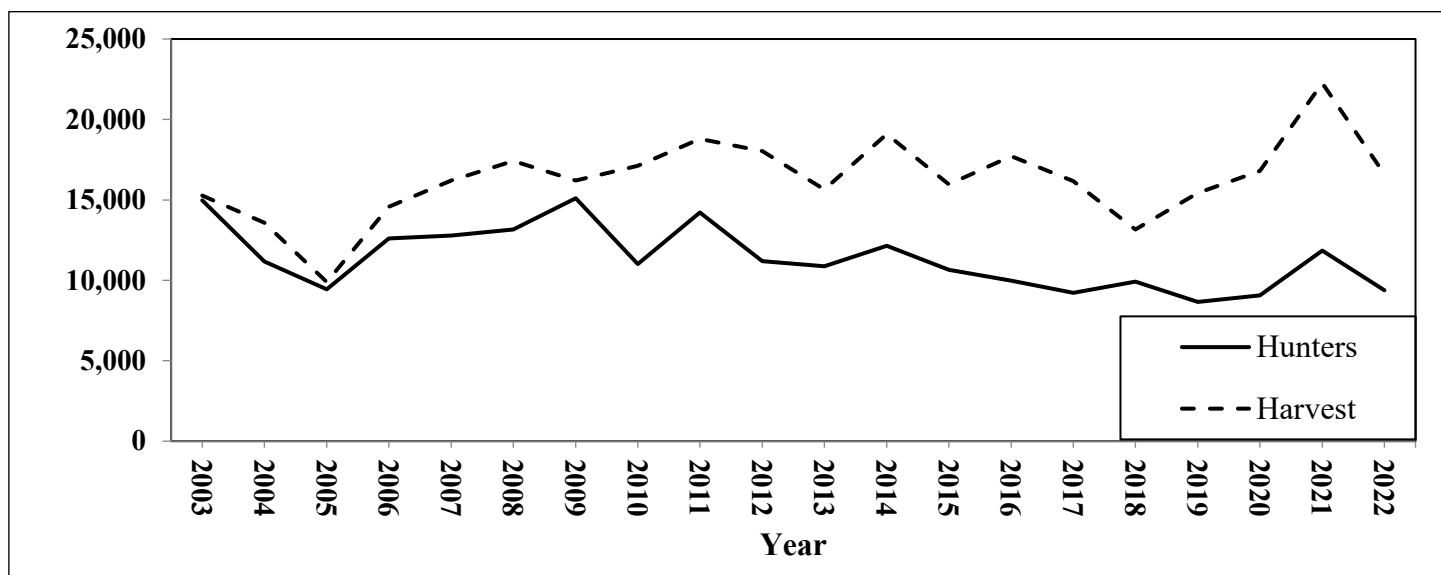

Figure 20. Early September Canada goose harvest and hunter activity, 2003-2022.

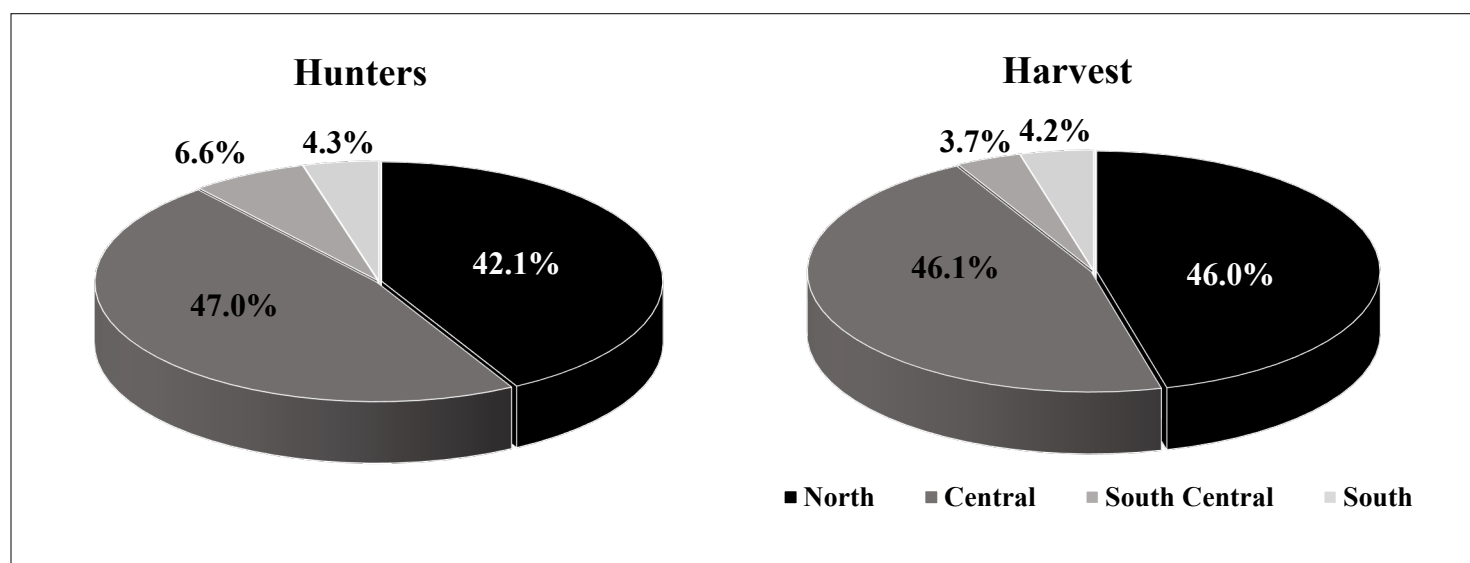

Figure 21. Early September Canada goose harvest and hunter activity by zone in Illinois during 2022.

Regular Goose Season

Canada goose harvest during the 2022-23 regular goose season decreased 5.2% from 2021-22 (Table 12, Figure 22). An estimated 25,430 hunters spent 286,107 days afield and harvested 94,139 Canada geese during 2022-23. The number of goose hunters in Illinois decreased 12.9% during 2022-23 compared to 2021-22, and the number of days afield decreased 22.0%. Hunters also harvested 23,576 other geese, of which 16,868 were light geese (snow, blue or Ross' geese) (*Anser caerulescens* and *Anser rossii*) and 6,708 were White-fronted (speckle-bellied) geese (*Anser albifrons*), for a total combined harvest of 117,715 geese (Table 12, Figure 23).

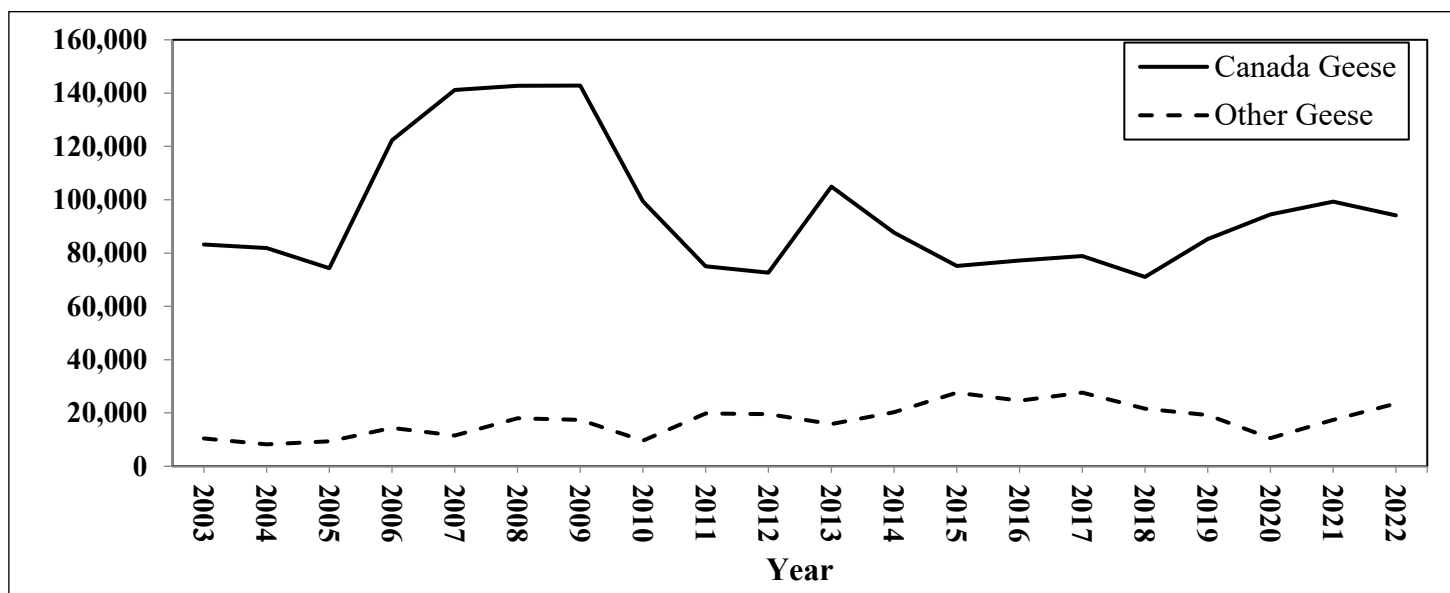

Figure 22. Goose harvest during Illinois' regular goose season from 2003-2022.

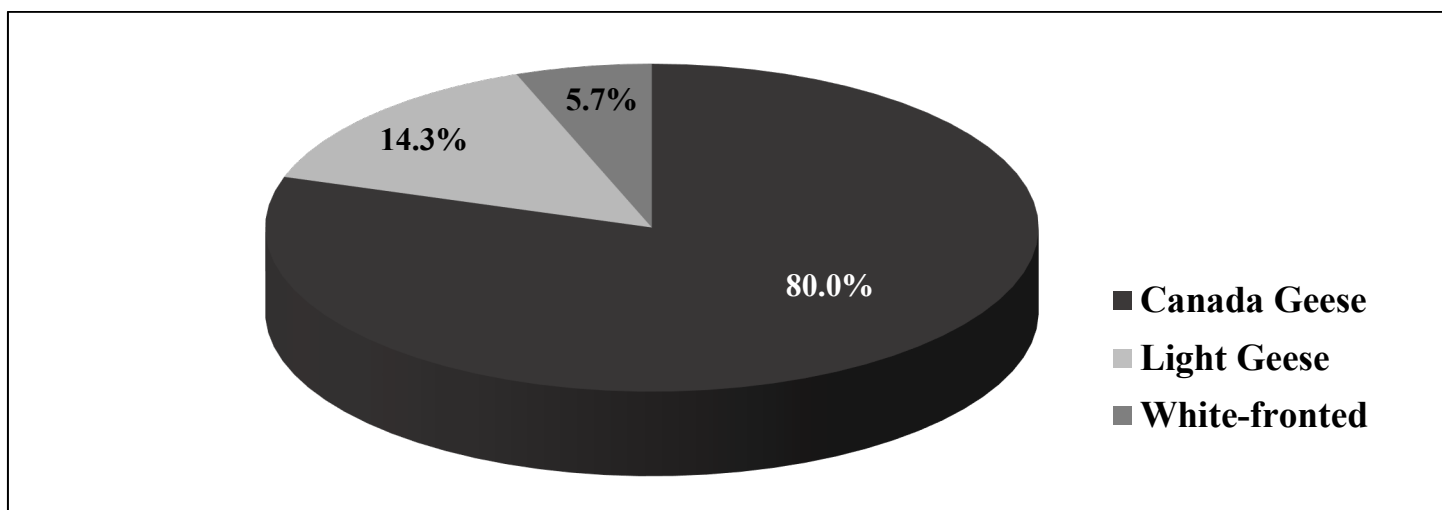

Figure 23. 2022-23 Illinois' regular goose season harvest.

Goose hunters reported a mean of 11.25 days afield and mean harvest of 4.63 geese per season and 0.41 geese per hunter per day; 27.7% of goose hunters harvested ≥ 5 geese (Figure 24, Tables 13 and 14). The Central zone led the state in the number of goose hunters (46.0%) and days afield (46.1%; Table 14). The North zone harvested the most Canada geese (50.2%), the Central zone harvested the most White-fronted geese (59.5%), and the South zone harvest the most light geese (43.2%; Table 14). Harvest of Canada geese is summarized by zone and year (2020-21 through 2022-23) in Table 15.

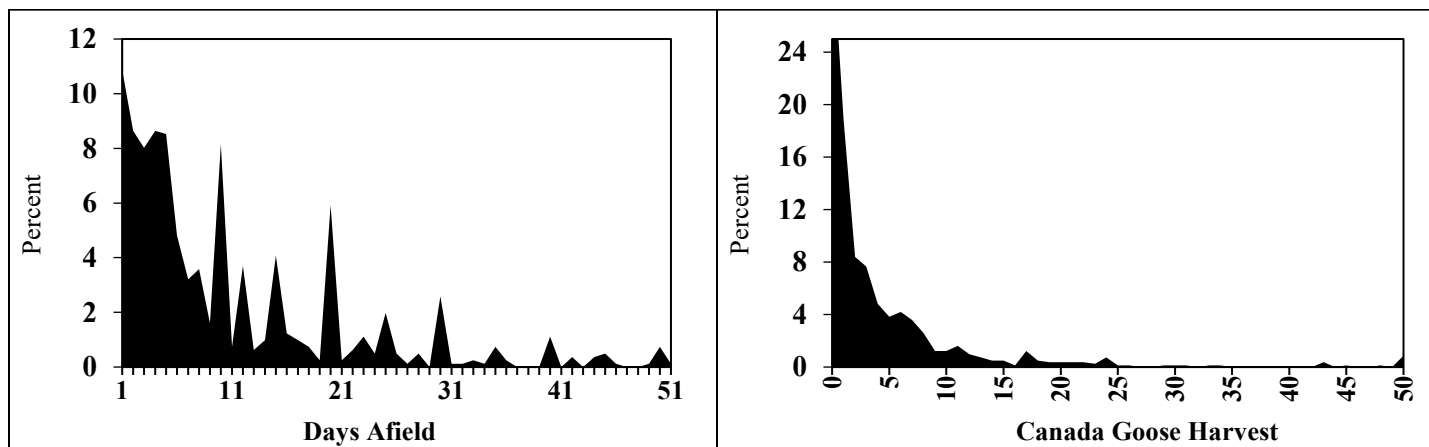

Figure 24. Distribution of days afield per hunter and geese harvested per hunter for Illinois' 2022-23 regular goose season.

Crippling Losses

Crippling losses (birds downed but not retrieved) during the 2022-23 regular season were estimated at 35,320 ducks and 7,378 geese (Table 16). These estimates, considered to be indices because they contain information about the relative number and are not actual number or abundance estimates, equate to 11.2 ducks and 6.3 geese lost per 100 harvested.

Public and Private Land Use

Forty percent (39.6%) of hunters hunted on Illinois public lands during 2022-23 (Figure 25). Among those who used public lands, sites in the Central zone were most popular (Figure 26). Over half (52.7%) of hunters who used public lands had at least one hunt in a blind awarded through a lottery (Figure 27).

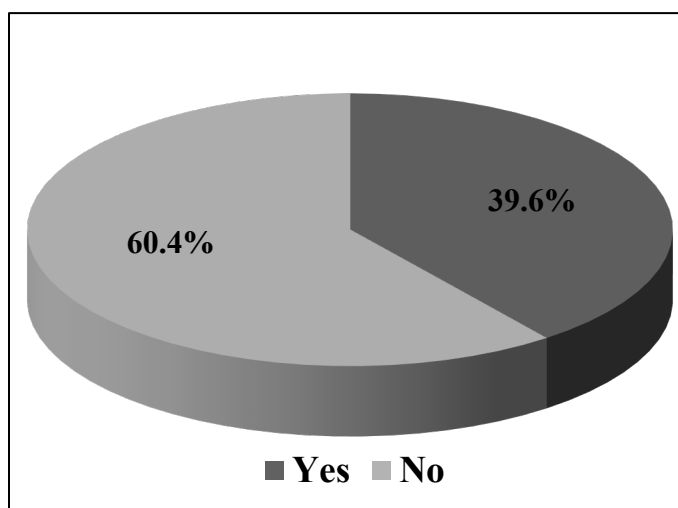

Figure 25. Hunters* who hunted on Illinois state public lands during 2022-23 ($n = 1,160$)

*Cases selected for those who indicated they hunted for at least 1 day during 2022-23.

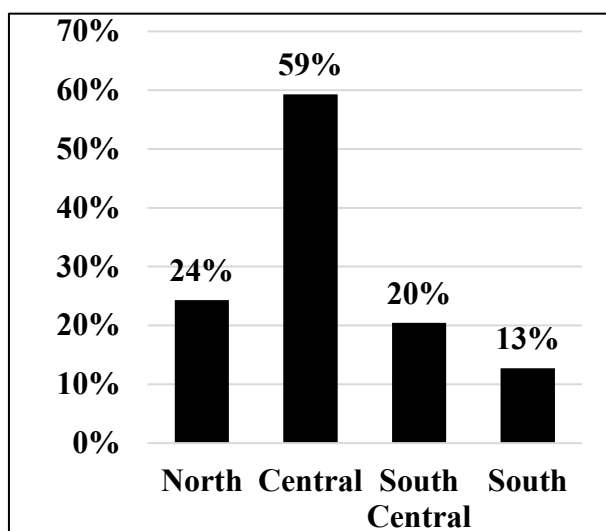

Figure 26. Zone in which public land hunted was located ($n = 474$).

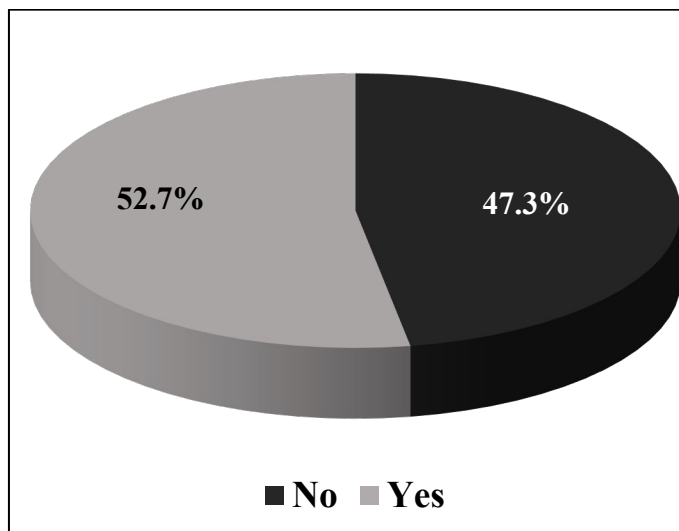

Figure 27. Waterfowl hunters whose public land use was in a blind awarded by lottery ($n = 474$).

Satisfaction with Season Timing and Zone Configuration

As a condition of implementing a four-zone structure, Illinois was required to collect information on hunter satisfaction in areas of the state impacted by waterfowl zone changes. The former South zone was divided into two zones with a goal of providing preferred season dates to most hunters in the South Central and South zones. Central zone duck hunters harvested the highest average number of ducks per hunter per season ($\bar{X} = 10.55$), an average of 2.88 more than South Central zone hunters, 3.53 more than hunters in the North zone, and 4.76 more than hunters in the South zone. Central zone duck hunters had the highest level of satisfaction for most aspects of the most recent duck season(s) in Illinois, except South zone duck hunters were more satisfied with “season start date allowed the season to match migration” and “weather during duck season” (Table 17). South Central zone hunters were the least satisfied zone with all aspects, except “amount of time you spent duck hunting” and “weather during duck season.”

The most important factors contributing to respondents’ waterfowl hunting experience in Illinois were: (1) seeing ducks in the field, (2) bagging mallards, (3) bagging ≥ 1 duck during a day in the field, and (4) bagging drakes (Table 18). The least important factors were: (1) bagging diving ducks, (2) bagging my daily limit, and (3) bagging a lot of ducks over the season. Satisfaction was low for each aspect of respondents’ most recent waterfowl hunting season in Illinois, though respondents were most satisfied with: (1) seeing ducks in the field, (2) bagging mallards, (3) bagging ≥ 1 duck during a day in the field, and (4) bagging drakes

(Table 19). Respondents were least satisfied with: (1) bagging my daily limit, (2) bagging a lot of ducks over the season, (3) bagging diving ducks, and (4) bagging teal and wood ducks.

When asked about season timing, hunters' opinions varied between regions with hunters in the North, Central, and South Central regions split between whether the 2022-23 regular duck season was "too early" (North: 43.1%, Central: 43.6%, South Central: 44.6%) or "about right" (North: 42.5%, Central: 39.2%, South Central: 41.5%), though nearly half of hunters in the South zone believed that the duck season was "about right" (49.4%) (Figure 28, Table 20). Most teal hunters and September goose hunters in each zone reported those seasons were timed "about right" (Table 20). Over 50% of goose hunters in each zone reported the timing for the 2022-23 regular goose season was "about right" (North: 59.4%, Central: 56.7%, South Central: 55.7%, South: 56.0%) (Figure 28). The most important considerations to respondents when deciding on their preferred 2022-23 duck season dates for the zone that they intend to hunt most often during the 2022-23 duck season were: (1) peak of duck migration (46.7%), (2) timing of mallard migration (20.4%), and (3) overlap goose season (6.8%).

Currently Illinois has a continuous duck season with 4 duck hunting zones. The next opportunity to change zone options will be for the period 2026 through 2030. The U.S. Fish and Wildlife Service only allows split seasons with 3 or fewer duck season zones. Respondents in the Central, South Central and South Zones would prefer three duck zone with 2 season segments (split) (46.2%, 56.8%, and 48.3%, respectively), while respondents in North zone were split between having three duck zones with 2 season segments (40.7%) and not having a preference (39.9%) (Figure 29, Table 21).

If a single split season were used for the duck season in Illinois for 2026 through 2030, then respondents' preferred splits that: (1) open and close later using a split to extend season (Option F; 35.3%), (2) open at the current time but close later using a split to give ducks a rest and provide a "second opening day" (Option B; 21.9%), and (3) open earlier and close later using a large split to extend season (Option A; 20.6%) (Figure 30, Table 22). If a single split season were used, then respondents in each zone most frequently preferred to open and close later using a split to extend the season (North: 30.8%, Central: 34.5%, South Central: 42.6%, South: 41.6%; Table 22). If a three duck zone configuration was used for 2026 through 2030,

then respondents in each zone most frequently preferred to combine the South Central and South zones, and no changes to the North and Central zones, though respondents in the South Central and South zones had a stronger preference for this option (61.9% and 49.4%, respectively) (Table 23, Figure 31).

Respondents were asked their preferred dates for the 2023-24 duck season in Illinois for the zone that they intend to hunt in most often during the 2023-24 duck season. A 60-day duck hunting season is currently used in Illinois, but respondents were also asked their preferred season dates if a 45-day or 30-day season was implemented. Respondents in the North and Central zones preferred that the season take place October 28th to December 26th if a 60-day season was used (21.9% and 20.0%, respectively), while respondents in the South Central and South zones preferred that the season always close on January 31st (29.9% and 20.4%, respectively) (Figure 32). Nearly half of respondents in the South zone would prefer that a 45-day season run from December 16th to January 29th (17.5%) or always close January 31st (31.8%), North zone respondents preferred the season start late October (Oct. 21 – Dec. 4: 17.1%; Oct. 28 – Dec. 11: 18.2%), Central zone respondents preferred that the season start early November (Nov. 4 – Dec. 18: 18.1%; Nov. 11 – Dec. 25: 14.4%), and South Central zone respondents preferred that season start either late November (Nov. 25 – Jan. 8; 16.7%) or always close January 31st (17.5%) (Figure 33). Respondents in the South zone would prefer that a 30-day season always close on January 31st (31.8%), North zone respondents preferred the season start late October (Oct. 21 – Nov. 19: 16.1%; Oct. 28 – Nov. 26: 18.2%), Central zone respondents preferred the season start mid-November (Nov. 18 – Dec. 17: 18.1%), and South Central zone respondents preferred the season start late-November (Nov. 25 – Jan. 8: 14.4%) or always close January 31st (16.1%) (Figure 34).

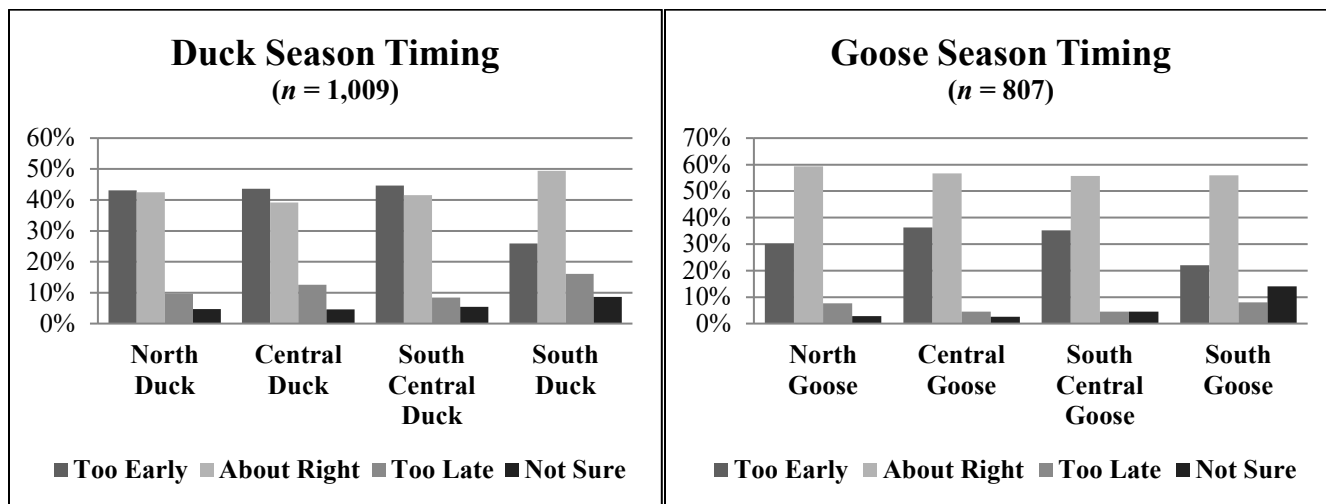

Figure 28. Duck and goose hunter* opinions about the timing of the 2022-23 waterfowl seasons.

*Cases selected for those who hunted for at least one day in the corresponding season zone.

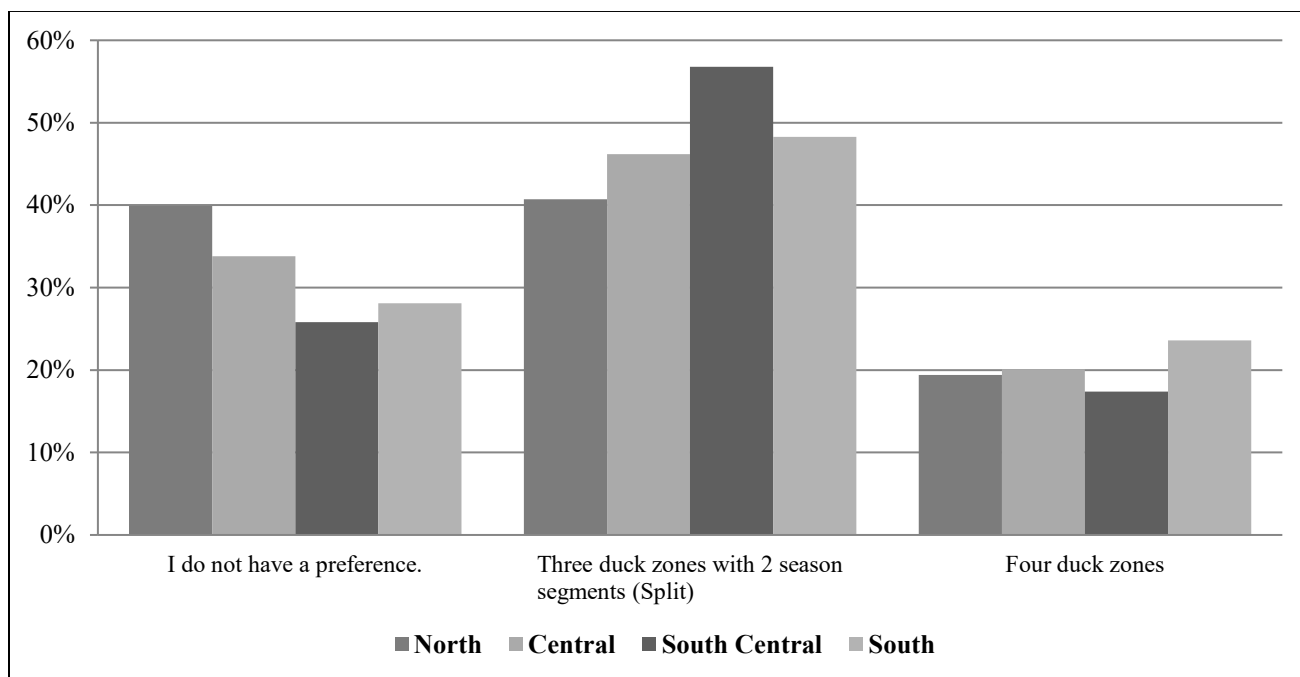

Figure 29. Respondents' preferred zoning option for Illinois for the period of 2026 through 2030 (n = 1,188).

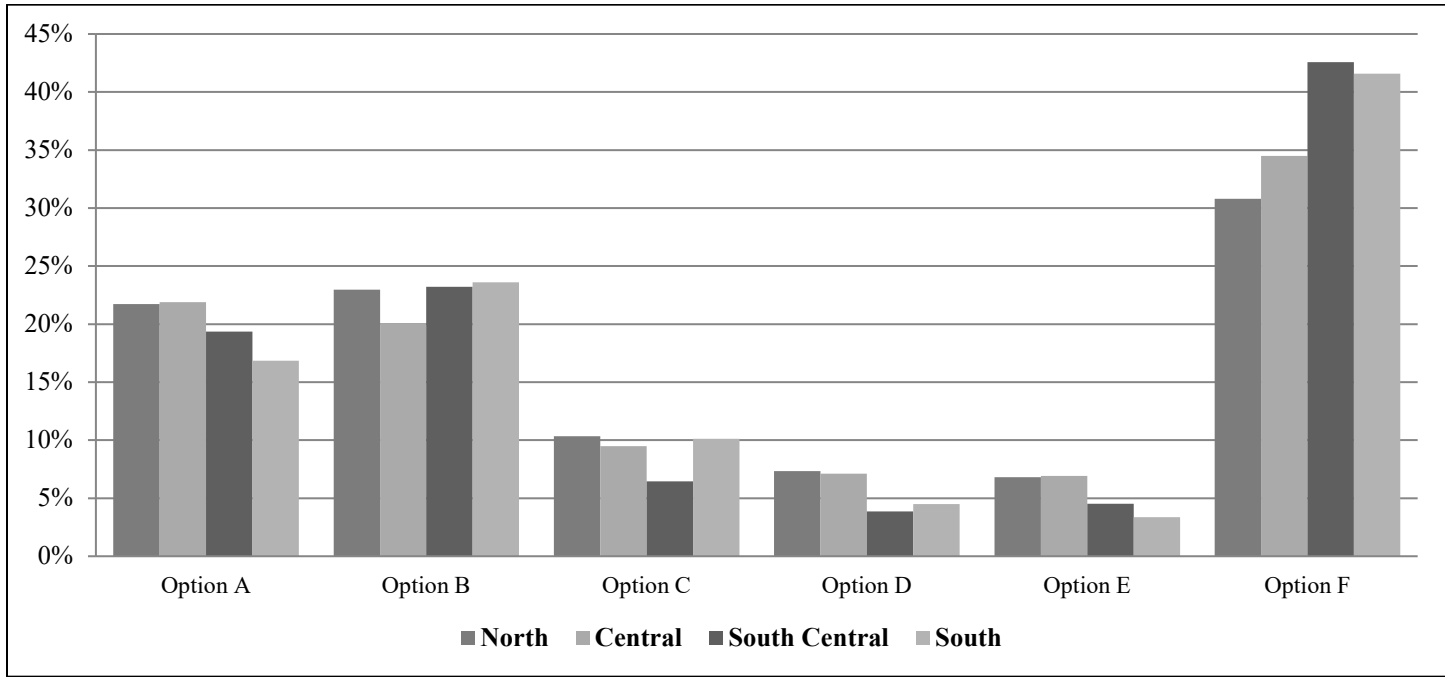

Figure 30. Preferred splits* for the duck hunting season in Illinois for zone hunted most often by respondent ($n = 1,188$).

*Option A – Open earlier and close later using a large split to extend season. Option B – Open at the current time but close later using a split to give ducks a rest and provide a “second opening day.” Option C – Open earlier and close at the current time using a small split to give ducks a rest and provide a “second opening day.” Option D – Use a split to create a short segment well before the current opening day to target early migrants. Option E – Use a split to create short segment well after the current closing date to target late migrants. Option F – Open and close later using a split to extend season.

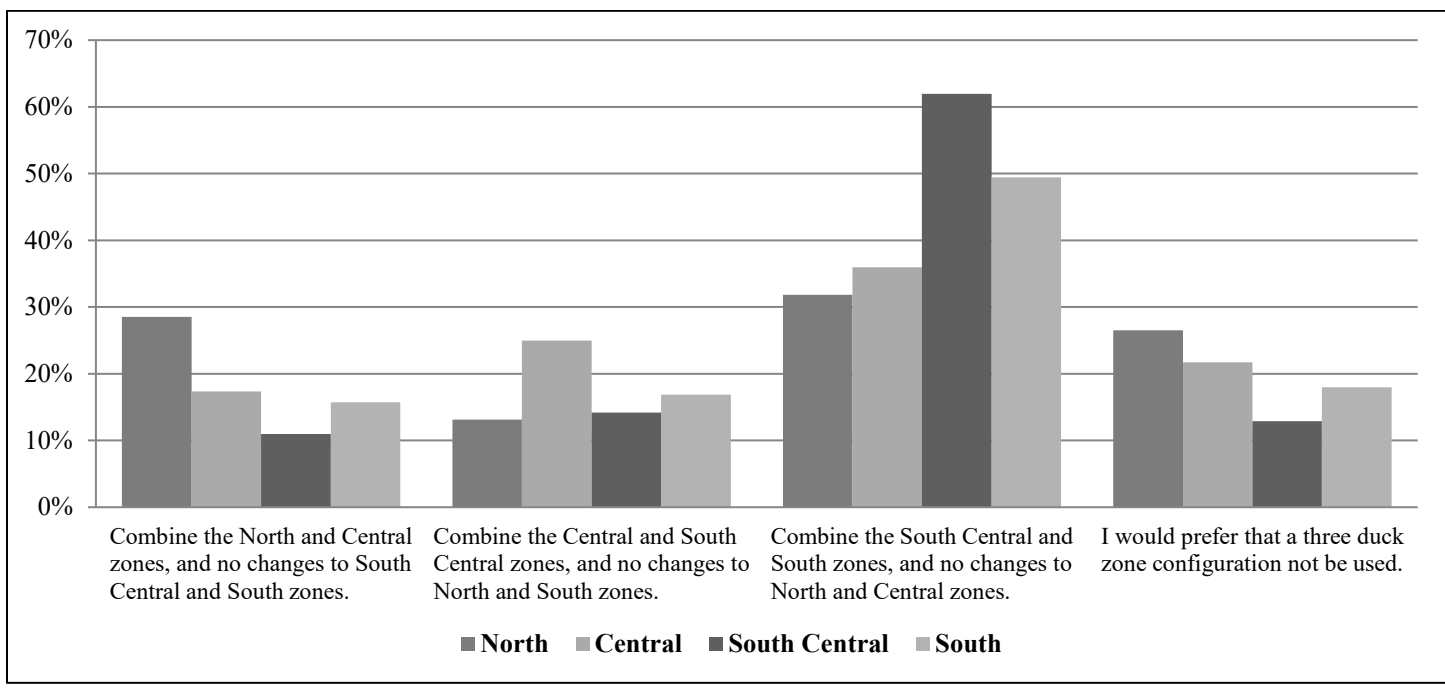

Figure 31. Respondents' preference for zones to combine if a three duck zone configuration was used in Illinois for the period of 2026 through 2030 ($n = 1,188$).

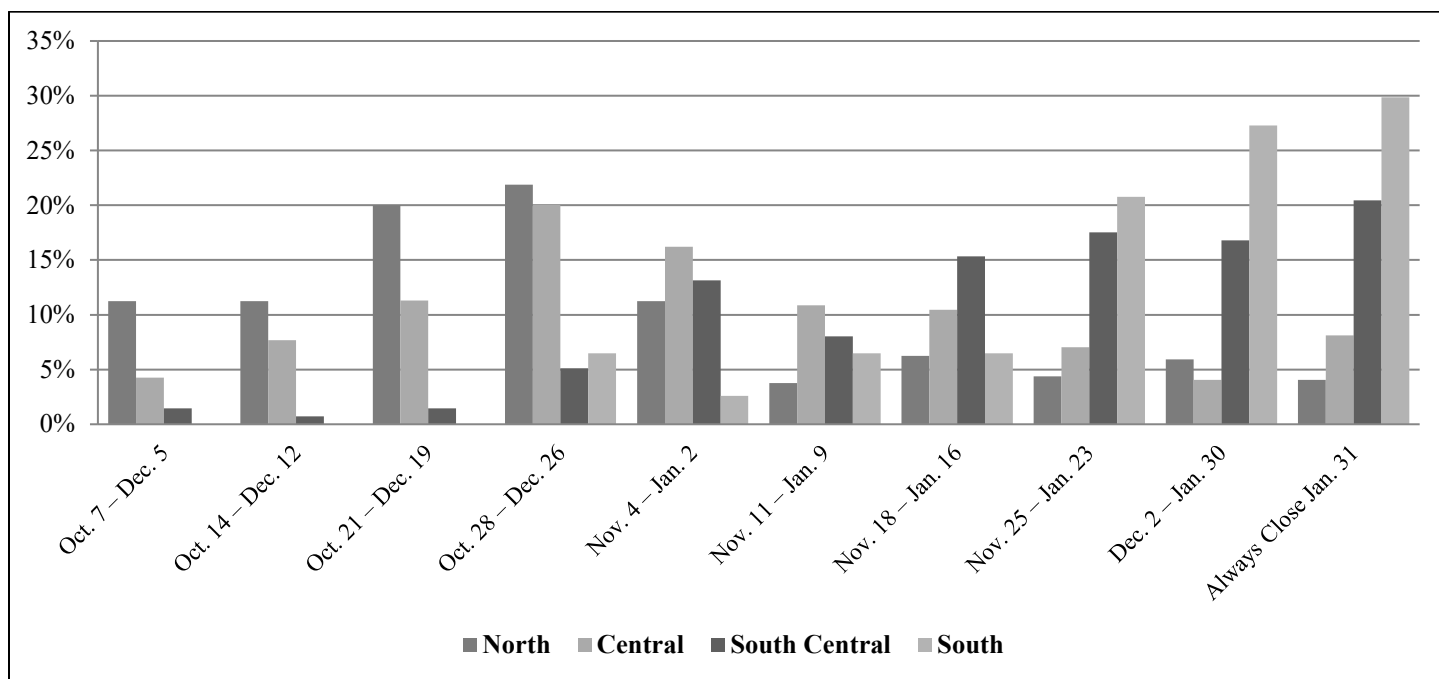

Figure 32. Preferred 2023-24 duck season dates if a 60-day duck season were used in the zone respondents intend to hunt most often during the 2023-24 duck season in Illinois ($n = 1,003$).

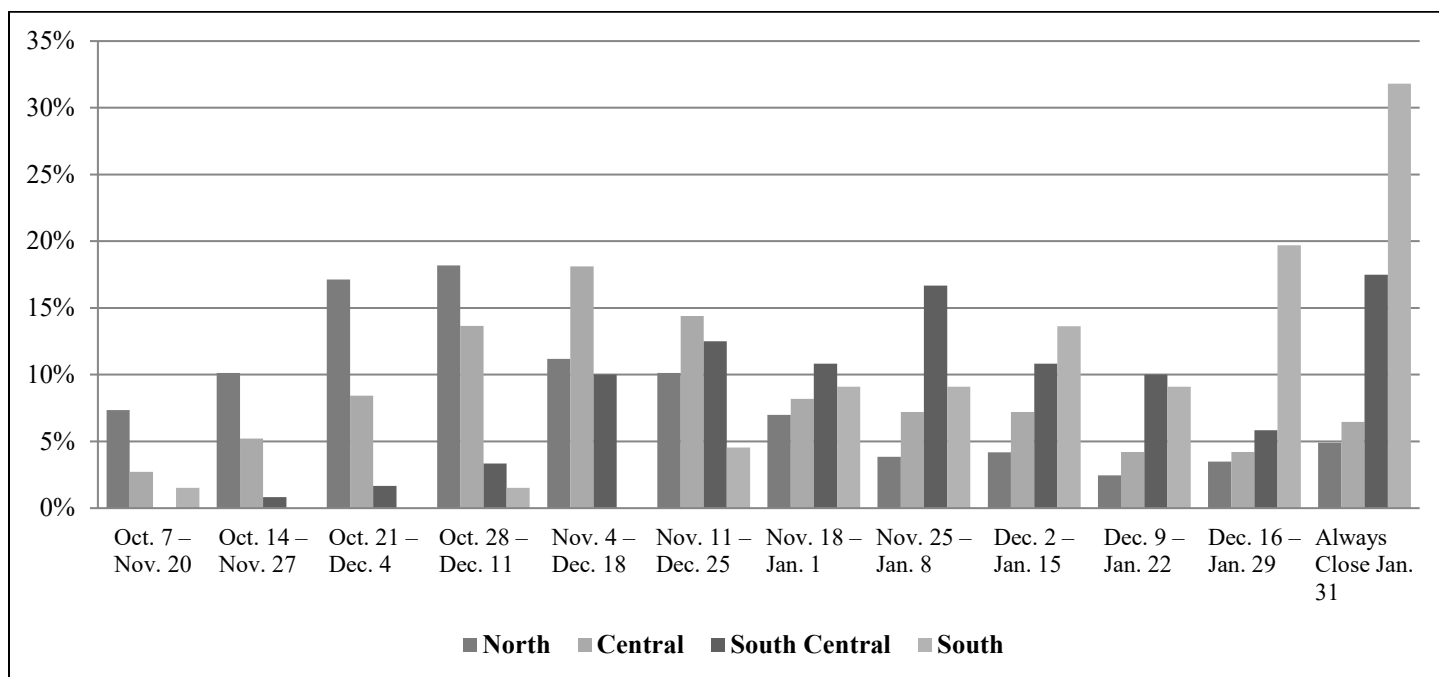

Figure 33. Preferred 2023-24 duck season dates if a 45-day duck season were used in the zone respondents intend to hunt most often during the 2023-24 duck season in Illinois ($n = 875$).

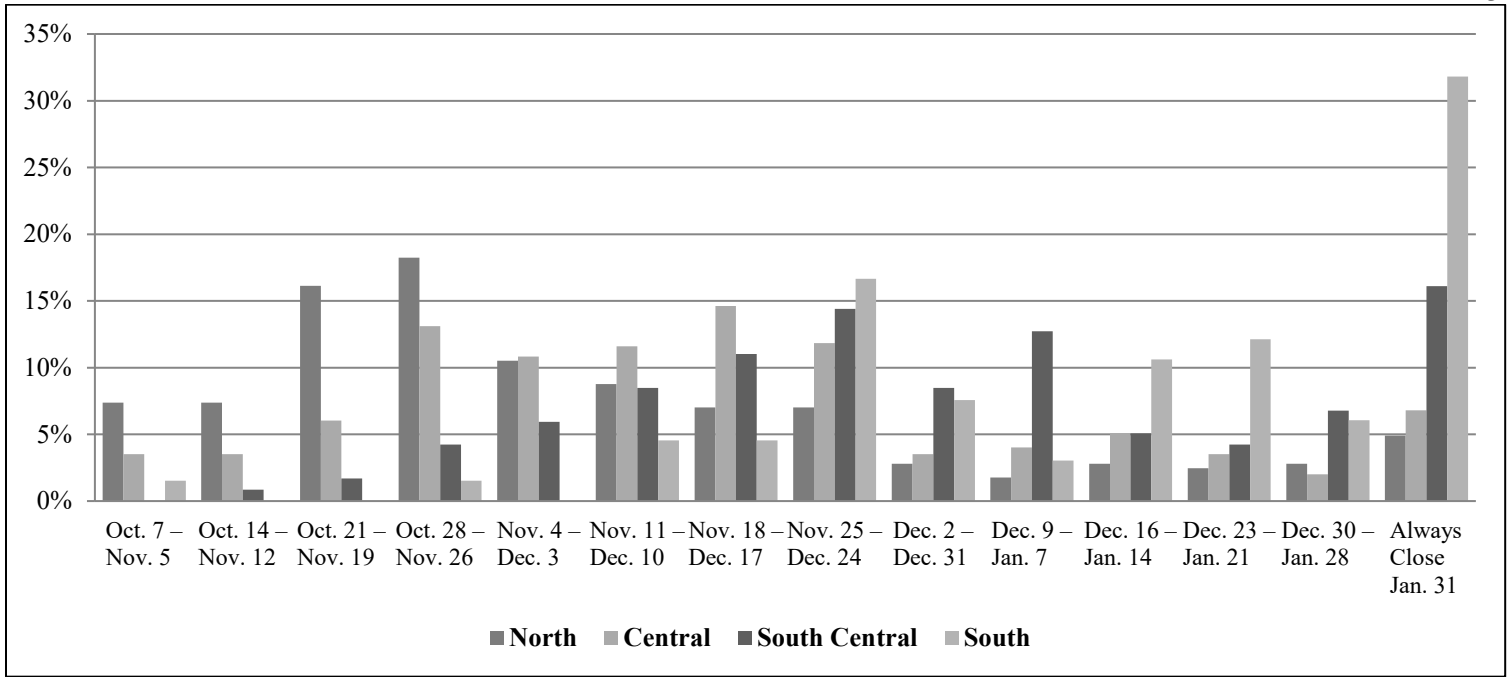

Figure 34. Preferred 2023-24 duck season dates if a 30-day duck season were used in the zone respondents intend to hunt most often during the 2023-24 duck season in Illinois ($n = 866$).

Communication with IDNR

Most respondents (90.3%) had Internet access at home (Figure 35) with 89.0% also having high-speed internet access at home (Figure 36). Over forty percent of respondents (44.3%) would like reminders to renew their hunting license each year (Figure 37) and the preferred method to receive reminders were: (1) email (76.0%), (2) text (44.1%), and (3) social media (11.8%; Figure 38). Most respondents (58.1%) would like reminders about permit due dates (Figure 39) and the preferred method to receive reminders were: (1) email (74.1%), (2) text (44.7%), and (3) social media (12.5%; Figure 40). Over forty percent of respondents (41.4%) have missed a permit application deadline because they did not know it was due (Figure 41). Twenty-three percent of respondents (22.9%) receive announcements from the IDNR in their email (Figure 42) and 33.1% have signed up for email announcements from the IDNR (Figure 43). Most respondents (68.1%) would use a free mobile-phone application provided by the IDNR to store an electronic copy of permits and licenses instead of being required to have a paper copy (Figure 44). Most respondents (73.8%) would use a smart phone application to report harvests if it were available (Figure 45). Most respondents (63.5%) purchased an Illinois hunting license/permit online for the 2022-23 hunting season (Figure 46) and 68.0% were satisfied with the overall experience of purchasing Illinois licenses/permits online (Figure 47).

Hunter Characteristics

Respondents who hunted during the 2022-23 waterfowl season have hunted waterfowl in Illinois for a mean of 28.4 years. On average, these hunters were 51.5 years of age and started waterfowl hunting at 20.0 years of age. Respondents were most frequently residents of Cook ($n = 75$), Tazewell ($n = 69$), Lake ($n = 65$), Madison ($n = 64$), and Will counties ($n = 59$). Most respondents (99.5%) hunted waterfowl in Illinois before this season (Figure 48).

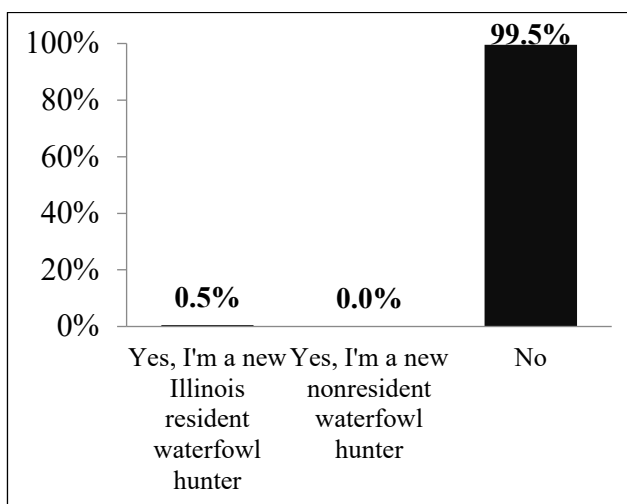

Figure 48. Number of hunters* whose first time hunting waterfowl in Illinois was during one of the 2022-23 waterfowl seasons ($n = 1,188$).

*Cases selected for those who indicated they hunted at least one day during the 2022-23 waterfowl seasons.

*Cases selected for those who hunted at least 1 day during the 2022-23 regular duck season.

Table 18. Importance of factors to respondents' waterfowl hunting experience in Illinois.

	Not At All Important	Slightly Important	Important	Very Important	Extremely Important
Seeing ducks in the field ($n = 1,575$)	2.3%	4.8%	36.6%	25.8%	30.5%
Bagging my daily limit ($n = 1,575$)	27.1%	35.7%	30.5%	3.8%	2.9%
Bagging at least 1 duck during a day in the field ($n = 1,575$)	11.6%	19.3%	41.9%	15.8%	11.4%
Bagging drakes ($n = 1,575$)	16.8%	23.2%	39.1%	12.5%	8.4%
Bagging a lot of ducks over the season ($n = 1,575$)	23.5%	29.8%	34.2%	7.8%	4.8%
Bagging a variety of different duck species ($n = 1,575$)	18.7%	23.6%	41.2%	12.3%	4.3%
Bagging diving ducks ($n = 1,575$)	45.7%	23.0%	25.0%	3.8%	2.5%
Bagging mallards ($n = 1,575$)	11.2%	15.6%	42.7%	19.7%	10.9%
Bagging teal and wood ducks ($n = 1,575$)	17.1%	23.6%	41.1%	12.9%	5.3%

Table 19. Satisfaction with aspects of respondents' most recent waterfowl hunting season in Illinois.

	Not at all Satisfied	Slightly Satisfied	Satisfied	Very Satisfied	Extremely Satisfied
Seeing ducks in the field ($n = 1,575$)	24.2%	35.0%	27.7%	8.4%	4.7%
Bagging my daily limit ($n = 1,575$)	38.3%	31.4%	24.8%	3.7%	1.7%
Bagging at least 1 duck during a day in the field ($n = 1,575$)	27.8%	29.6%	31.7%	7.2%	3.7%
Bagging drakes ($n = 1,575$)	26.4%	29.5%	33.7%	7.7%	2.7%
Bagging a lot of ducks over the season ($n = 1,575$)	38.0%	29.8%	25.7%	4.4%	2.1%
Bagging a variety of different duck species ($n = 1,575$)	32.0%	28.4%	30.5%	6.4%	2.7%
Bagging diving ducks ($n = 1,575$)	38.6%	26.9%	28.3%	4.2%	2.0%
Bagging mallards ($n = 1,575$)	29.9%	29.8%	29.0%	8.3%	3.1%
Bagging teal and wood ducks ($n = 1,575$)	32.2%	29.9%	29.3%	6.3%	2.3%

Table 20. Hunter* opinions of the timing of 2022-23 waterfowl seasons.**

Season	<i>n</i>	Too Early (%)	About Right (%)	Too Late (%)	Not Sure (%)
North September Teal	77	13.0%	74.0%	7.8%	5.2%
Central September Teal	147	8.2%	78.2%	10.9%	2.7%
South Central September Teal	38	7.9%	76.3%	10.5%	5.3%
South September Teal	11	18.2%	81.8%	0.0%	0.0%
Combined September Teal	273	9.9%	76.9%	9.5%	3.7%
North September Goose	124	13.7%	78.2%	4.0%	4.0%
Central September Goose	134	12.7%	81.3%	3.0%	3.0%
South Central September Goose	21	9.5%	66.7%	9.5%	14.3%
South September Goose	15	0.0%	93.3%	6.7%	0.0%
Combined September Goose	294	12.2%	79.6%	4.1%	4.1%
North Regular Duck	320	43.1%	42.5%	9.7%	4.7%
Central Regular Duck	477	43.6%	39.2%	12.6%	4.6%
South Central Regular Duck	130	44.6%	41.5%	8.5%	5.4%
South Regular Duck	81	25.9%	49.4%	16.0%	8.6%
Combined Regular Duck	1,009	42.2%	41.3%	11.4%	5.1%
North Regular Goose	315	30.2%	59.4%	7.6%	2.9%
Central Regular Goose	353	36.3%	56.7%	4.5%	2.5%
South Central Regular Goose	88	35.2%	55.7%	4.5%	4.5%
South Regular Goose	50	22.0%	56.0%	8.0%	14.0%
Combined Regular Goose	807	33.0%	57.5%	5.9%	3.6%

*Cases selected for those who indicated they hunted at least 1 day during the corresponding zone/season in 2022-23.

**Zone determined by zone hunted in most often for species in 2022-23 season.

Table 21. Respondents' preferred zoning option for Illinois for the period of 2026 through 2030.

	Zones			
	North (<i>n</i> = 396)	Central (<i>n</i> = 548)	South Central (<i>n</i> = 155)	South (<i>n</i> = 89)
Three duck zones with 2 season segments (Split)	40.7%	46.2%	56.8%	48.3%
Four duck zones (No change from current system)	19.4%	20.1%	17.4%	23.6%
I do not have a preference	39.9%	33.8%	25.8%	28.1%

Table 22. Preferred splits for the duck hunting season in Illinois for zone hunted most often by respondent.

	Zones			
	North (n = 396)	Central (n = 548)	South Central (n = 155)	South (n = 89)
Option A Open earlier and close later using a large split to extend season.	21.7%	21.9%	19.4%	16.9%
Option B Open at the current time but close later using a split to give ducks a rest and provide a “second opening day.”	23.0%	20.1%	23.2%	23.6%
Option C Open earlier and close at the current time using a small split to give ducks a rest and provide a “second opening day.”	10.4%	9.5%	6.5%	10.1%
Option D Use a split to create a short segment well before the current opening day to target early migrants.	7.3%	7.1%	3.9%	4.5%
Option E Use a split to create a short segment well after the current closing date to target late migrants.	6.8%	6.9%	4.5%	3.4%
Option F Open and close later using a split to extend season.	30.8%	34.5%	42.6%	41.6%

Table 23. Respondents’ preference for zones to combine if a three duck zone configuration was used in Illinois for the period of 2026 through 2030.

	Zones			
	North (n = 396)	Central (n = 548)	South Central (n = 155)	South (n = 89)
Combine the North and Central zones, and no changes to South Central and South zones.	28.5%	17.3%	11.0%	15.7%
Combine the Central and South Central zones, and no changes to North and South zones.	13.1%	25.0%	14.2%	16.9%
Combine the South Central and South zones, and no changes to North and Central zones.	31.8%	35.9%	61.9%	49.4%
I would prefer that a three duck zone configuration not be used.	26.5%	21.7%	12.9%	18.0%

Illinois Waterfowl Hunter Survey 2022-23 Season

Paul B Johnson

Illinois Department of Natural Resources
Division of Wildlife Resources
&
The Illinois Natural History Survey

I ILLINOIS
Illinois Natural History Survey
PRAIRIE RESEARCH INSTITUTE

The Department of Natural Resources is requesting disclosure of information that is necessary to accomplish the statutory purpose as outlined under the Illinois Compiled Statutes, The Wildlife Code, Chapter 520. Disclosure of information is voluntary. This study is funded by the federal Wildlife Restoration Fund through your purchase of sporting arms and ammunition.

THANK YOU FOR YOUR COOPERATION!

All of your responses will be kept confidential.

Please return this survey in the postage-paid return envelope provided.

Section 1. Waterfowl Hunting in Illinois. Please provide the following information so that Illinois Department of Natural Resources (IDNR) waterfowl biologists may better understand hunters in Illinois. 44

1. Did you purchase an Illinois State Waterfowl Stamp for the 2022-23 season? ☐ Yes ☐ No
2. Do you **ever** purchase an Illinois Migratory Waterfowl Stamp without intending to hunt during the waterfowl season in Illinois?

☐ Yes ☐ No (If "No," please go to **Question 3**)

- 2a. Which of the following best describes how often you purchase an Illinois Migratory Waterfowl Stamp without intending to hunt during the waterfowl season in Illinois?

☐ Every year ☐ Most years ☐ Occasional years ☐ Rarely

- 2b. Please indicate the reason that you purchase an Illinois Migratory Waterfowl Stamp without intending to hunt during the waterfowl season in Illinois? (Please check **all** that apply)

☐ Collect waterfowl stamps ☐ Support wildlife conservation
☐ Support wetland and grassland conservation ☐ Support birding, nature photography, and
☐ Other (Please identify): _____ other recreation

3. Which of the following best describes how often you hunt **waterfowl** (ducks, geese, or coots) in Illinois?

☐ Every year ☐ Most years ☐ Occasional years ☐ Rarely ☐ Never

If you NEVER hunt waterfowl in Illinois, please go to Section 5. ←

4. Did you hunt waterfowl in Illinois during the 2022-23 waterfowl hunting season?

☐ Yes ☐ No (If "No," please go to **Section 3**)

- 4a. Was the 2022-23 Illinois waterfowl season your **first** time hunting waterfowl in Illinois?

☐ No ☐ Yes (new Illinois resident hunter) ☐ Yes (new nonresident hunter)

Please refer to the zone map on the back of the included cover letter to answer question 4b.

- 4b. In which of the following zones did you hunt **waterfowl MOST often**? (Please check **one** response)

☐ North Zone ☐ Central Zone ☐ South Central Zone ☐ South Zone

5. Did you hunt waterfowl on **Illinois state public land** during the 2022-23 seasons?

☐ Yes ☐ No (If "No," please go to **Question 6**)

- 5a. In which zone(s) did you hunt waterfowl on public land? (Please check **all** that apply)

☐ North Zone ☐ Central Zone ☐ South Central Zone ☐ South Zone

- 5b. Did any of your hunts on public lands use a blind awarded through a lottery? ☐ Yes ☐ No

6. Did you hunt fewer or more days during the 2022-23 waterfowl season compared to the last 5 years?

☐ Much fewer ☐ Fewer ☐ About the same ☐ More ☐ Much more

Section 2. Waterfowl Harvest in Illinois. Please provide the following information so that IDNR waterfowl biologists may estimate waterfowl harvest, conserve waterfowl populations, and provide hunting opportunities in Illinois. **If you did not hunt waterfowl in Illinois during the 2022-23 seasons, please go to Section 3.**

1. Please report your hunting effort and harvest in Illinois between September 1st, 2022 and January 31st, 2023 in the following tables.

- Include only **your personal effort and harvest** (**DO NOT** include harvests for party)
- Count part of 1 day as 1 whole day.
- Only report days hunted in the table for the species you targeted that day.

a. **September Teal Season** (**DO NOT** include harvest after September)

Zone hunted	County hunted	Total days hunted	Teal harvested	Teal downed but not retrieved

b. **September Canada Goose Season** (**DO NOT** include harvest after September)

Zone hunted	County hunted	Total days hunted	Geese harvested	Geese downed but not retrieved

c. **Regular Duck Season** (**DO NOT** include harvest from September)

Zone hunted	County hunted	Total days hunted	Mallards harvested	Wood ducks harvested	Canvas-backs harvested	Other ducks harvested	Coots harvested	Ducks downed but not retrieved

d. **Regular Goose Season** (**DO NOT** include harvest from September or Conservation Order Light Goose season that occurs after regular goose season closes)

Zone hunted	County hunted	Total days hunted	Canada geese harvested	White-fronted (Specklebelly) geese harvested	Snow/Blue/Ross' geese harvested	Geese downed but not retrieved

Section 3. Youth Hunts. Please answer the following questions about mentoring youth hunters in Illinois.
Please note: “Youths” are defined as hunters **17 years of age or younger**.

46

1. Did you take a youth (17 years old or younger) hunting during the **2022 Youth Waterfowl Hunting Days**?

_____ Yes _____ No (If “No,” please go to **Section 4**)

1a. Was this **at least one youth’s first time** duck or goose hunting? _____ Yes _____ No

1b. Was this **YOUR** first time accompanying a youth during the **Youth Waterfowl Hunting Days**?

_____ Yes (If “Yes,” please go to **Question 2**) _____ No

1c. How often do you accompany a youth during the **Youth Waterfowl Hunting Days**?

_____ Every year _____ Most but not every year _____ Occasionally

2. Please report information for each youth that hunted during the **2022 Youth Waterfowl Hunting Days**.

(North Zone: **Oct. 15-16**, Central Zone: **Oct. 22-23**, South Central Zone: **Nov. 5-6**, South Zone: **Nov. 26-27**)

Enter **0** if the youth did not harvest any ducks, geese, or coots.

	Age	Number of Days hunted	County hunted	Mallards harvested	Wood ducks harvested	Other ducks harvested	Geese harvested	Coots harvested
Youth 1								
Youth 2								
Youth 3								
Youth 4								

Section 4. Satisfaction and Zone Timing. The following questions will tell us about your satisfaction with the **2022-23 Illinois waterfowl season(s)**.

1. Do you feel the dates of the 2022-23 waterfowl hunting seasons were too early, about right, or too late in the zone where you hunted **most often**? (Please circle **one** number for each season)

	Too early	About right	Too late	I am not sure	I <u>did not</u> hunt this season
Teal season (<i>September only</i>)	1	2	3	4	5
September Canada Goose Season (<i>September only</i>)	1	2	3	4	5
Duck Season	1	2	3	4	5
Canada Goose Season	1	2	3	4	5

2. Please indicate the **most important** consideration when deciding on your preferred 2023-24 **duck season** dates for the zone that you intend to hunt **most often** during the 2023-24 duck season. (Please check **one** response)

- | | |
|---|---|
| _____ Timing of wood duck migration | _____ Minimize impact on firearm deer hunting season |
| _____ Timing of mallard migration | _____ Avoid bad weather (e.g., snow, cold temperatures) |
| _____ Maximize number of January hunting days | _____ Minimize impact on upland game season |
| _____ Ice (I prefer hunting after freeze up) | _____ Ice (I do not hunt once the water freezes) |
| _____ Peak of duck migration | _____ Overlap goose season |
| _____ Other (please identify): _____ | |

3. Please rate the importance of each item to **your waterfowl hunting experience in Illinois**. (Please circle **one** number that matches your response) 47

	Not at all Important	Slightly Important	Important	Very Important	Extremely Important
Seeing ducks in the field	1	2	3	4	5
Bagging my daily limit	1	2	3	4	5
Bagging at least 1 duck during a day in the field	1	2	3	4	5
Bagging drakes	1	2	3	4	5
Bagging a lot of ducks over the season	1	2	3	4	5
Bagging a variety of different duck species	1	2	3	4	5
Bagging diving ducks	1	2	3	4	5
Bagging mallards	1	2	3	4	5
Bagging teal and wood ducks	1	2	3	4	5

4. Please rate your satisfaction with the following aspects of **your most recent waterfowl hunting season in Illinois**. (Please circle **one** number that matches your response)

	Not at all Satisfied	Slightly Satisfied	Satisfied	Very Satisfied	Extremely Satisfied
Seeing ducks in the field	1	2	3	4	5
Bagging my daily limit	1	2	3	4	5
Bagging at least 1 duck during a day in the field	1	2	3	4	5
Bagging drakes	1	2	3	4	5
Bagging a lot of ducks over the season	1	2	3	4	5
Bagging a variety of different duck species	1	2	3	4	5
Bagging diving ducks	1	2	3	4	5
Bagging mallards	1	2	3	4	5
Bagging teal and wood ducks	1	2	3	4	5

5. Please rate your **SATISFACTION with the most recent duck season(s) you hunted in Illinois** by circling the number that best matches your response. **If you did not hunt ducks during 2022-23, please go to Question 6.**

	Very Dissatisfied	Dissatisfied	Neutral	Satisfied	Very Satisfied
Number of ducks you saw	1	2	3	4	5
<u>Mid-season</u> matched peak of duck migration	1	2	3	4	5
Amount of shooting you got in	1	2	3	4	5
Number of ducks migrating through areas you hunted	1	2	3	4	5
Amount of time you spent duck hunting	1	2	3	4	5
Number of ducks you harvested	1	2	3	4	5
<u>Season start date</u> allowed the season to match migration	1	2	3	4	5
Weather during duck season	1	2	3	4	5

6. Currently Illinois has a continuous duck season with 4 duck hunting zones. The next opportunity to change zone options will be for the period **2026 through 2030**. The U.S. Fish and Wildlife Service only allows split seasons with 3 or fewer duck season zones. Which option do you prefer for Illinois for the period **2026 through 2030**?

Note that split seasons open for a segment, close for a period, and then reopen. (Please check ONE response)

- ☐ Three duck zones with 2 season segments (Split)
- ☐ Four duck zones (Split season is prohibited by U.S. Fish and Wildlife Service, no change from current system)
- ☐ I do not have a preference

- 6a. If a **split season** were used for the period of **2026 through 2030**, there are several possible options for when the seasons could be closed. Below is a diagram that illustrates how some states currently use splits. Please refer to the diagram and choose how you would prefer splits be used in Illinois for the zone you hunt most often.

(Please check ONE response)

	Early	Mid-season	Late
Illinois Currently	Open		
Option A	Open	Closed	Open
Option B	Open	Closed	Open
Option C	Open	Closed	Open
Option D	Closed	Open	
Option E		Open	Closed
Option F		Open	Closed

- ☐ **Option A** Open earlier and close later using a large split to extend season.
- ☐ **Option B** Open at the current time but close later using a split to give ducks a rest and provide a “second opening day.”
- ☐ **Option C** Open earlier and close at the current time using a small split to give ducks a rest and provide a “second opening day.”
- ☐ **Option D** Use a split to create a short segment well before the current opening day to target early migrants.
- ☐ **Option E** Use a split to create short segment well after the current closing date to target late migrants.
- ☐ **Option F** Open and close later using a split to extend season.

- 6b. If a three duck zones configuration were used for the period of **2026 through 2030**, which **one of the following three zone options** would you prefer to combine? Refer to the map on the back of the cover letter if necessary.

(Please check ONE response)

- ☐ Combine the North and Central zones, and no changes to South Central and South zones.
- ☐ Combine the Central and South Central zones, and no changes to North and South zones.
- ☐ Combine the South Central and South zones, and no changes to North and Central zones.
- ☐ I would prefer that a three duck zone configuration not be used.

7. Please select your preferred 2023-24 **DUCK season** dates for the zone you intend to hunt in most often during the 2023-24 duck season. A 60-day duck hunting season is currently used in Illinois, but select a date for **each** season length. The 2022-23 duck season dates were as follows: North Zone: **Oct. 22 – Dec. 20**, Central Zone: **Oct. 29 – Dec. 27**, South Central Zone: **Nov. 12 – Jan. 10**, South Zone: **Dec. 3 – Jan. 31**.

Please check **one** response

30 Day Season

Section 5. Communication. Please answer the following questions about IDNR communication efforts.

1. Do you have Internet access in your home? ☐ Yes ☐ No
 - 1a. If “Yes,” do you have high-speed Internet access? ☐ Yes ☐ No
2. Would you like reminders to renew your hunting license each year? ☐ Yes ☐ No
 - 2a. If “Yes,” how would you like to be reminded? (Please check **all** that apply)

☐ Text
 ☐ Email
 ☐ Social media
3. Would you like reminders about permit due dates? ☐ Yes ☐ No
 - 3a. If “Yes,” how would you like to be reminded? (Please check **all** that apply)

☐ Text
 ☐ Email
 ☐ Social media
4. Have you missed a permit application deadline because you did not know it was due?

☐ Yes
 ☐ No
5. Do you receive announcements from IDNR in your email?

☐ Yes
 ☐ Not now, but I used to get them
 ☐ No
6. Did you sign up for email announcements from IDNR? ☐ Yes ☐ No

7. Would you use a free mobile-phone application provided by the IDNR to store an electronic copy of permits and licenses instead of being required to have a paper copy? 50

____ Yes ____ No

8. Would you use a smart phone application to report harvests if it were available?

____ Yes ____ No

9. Did you purchase any Illinois hunting licenses/permits online for the 2022-23 hunting season?

____ Yes ____ No

9a. If "Yes," please indicate your satisfaction with the overall experience of purchasing Illinois hunting licenses/permits online? Please circle the number that best matches your response.

Very Unsatisfactory	Unsatisfactory	Neither	Satisfactory	Very Satisfactory
1	2	3	4	5

Section 6. Background Information. The following questions allow us to understand more about the people involved in waterfowl hunting in Illinois. All responses are kept confidential.

1. How many years have you hunted waterfowl in Illinois? ____ Years

2. At what age did you first hunt waterfowl? ____ Years old

3. What is your county of residence? _____ County (If nonresident, please include state)

4. Please give your age. ____ Years old

Comments

THANK YOU FOR YOUR TIME AND ASSISTANCE!

Please return this survey in the postage-paid envelope provided.

The Illinois Department of Natural Resources receives federal assistance and therefore must comply with federal anti-discrimination laws. In compliance with the Illinois Human Rights Act, the Illinois Constitution, Title VI of the 1964 Civil Rights Act, Section 504 of the Rehabilitation Act as amended, and the U.S. Constitution, the Illinois Department of Natural Resources does not discriminate on the basis of race, color, sex, national origin, age, or disability. ILLINOIS NATURAL HISTORY SURVEY

Prairie Research Institute
University of Illinois at Urbana-Champaign

Dear Waterfowl Hunter,

Your name was randomly selected from a list of 2021 resident/non-resident State Waterfowl stamp purchasers and Illinois Harvest Information Program (HIP) registrants. We are asking you to provide information about your activities during the 2022-23 waterfowl hunting seasons in Illinois. **Even if you did not hunt ducks or geese in Illinois during the 2022-23 seasons, we need to hear from you and we ask that you take a few minutes to complete and return the enclosed questionnaire.**

We have included the Illinois waterfowl zone map on the back of this letter if you need it to determine the zone(s) you hunted.

This study, jointly conducted by the Illinois Department of Natural Resources and the Illinois Natural History Survey, is an effort to learn about waterfowl hunting activities in Illinois. Results of this study will help waterfowl managers make decisions to improve hunting opportunities and to better manage Illinois' duck and goose populations. **Your responses are voluntary and completely confidential.** By responding you will help us more effectively manage waterfowl and hunting in Illinois.

If you do not wish to participate, please return the blank questionnaire so we can remove you from our mailing list.

You may access the results of this and other studies of hunters and hunting in Illinois at <https://publish.illinois.edu/human-dimensions/>. You may also find information about Illinois Department of Natural Resources wildlife management programs and wildlife in Illinois at <https://www.dnr.illinois.gov/conservation/wildlife>.

If you have questions regarding this study, please call us at (217) 244-5121.

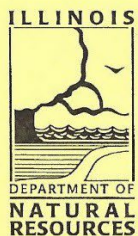

Sincerely,

A handwritten signature in black ink, appearing to read "Craig A. Miller".

Craig A. Miller
Human Dimensions Research Program

Appendix C

Dear Waterfowl Hunter,

Recently you were mailed a questionnaire about your waterfowl hunting activities in Illinois. We have not yet received your response. **If you have already returned the questionnaire, we thank you. If you have not returned the questionnaire, please do so as soon as possible. Your input is very important!**

Your name and address will be deleted from our mailing list when your questionnaire is received. Thank you for your cooperation.

2021	54,044	42,839	1,000,494	543,858
2022	47,156	36,419	778,576	489,094

^aTeal, ducks, coots, and geese combined, and including September teal and Canada goose seasons and youth hunt.

The U.S. Fish and Wildlife Service suspended the September Teal season in 1988 through 1991.

^bStamps purchased for commercial art purposes. These stamps were not included in the numbers to the left.

^cEstimates of waterfowl hunters and days afield for these years reduced to 92.48% - 96.48% of the original estimates. Estimates of waterfowl (teal, ducks, coots, and geese combined) harvested reduced to 94.54% - 97.74 of original estimates. See Anderson and Williamson (1994) for explanation.

Table F-2. The percentage of regular season waterfowl hunters who hunted exclusively ducks, exclusively geese, or both ducks and geese in Illinois from 1982 through 2022 seasons.

Season (Year)	Hunted Ducks Only	Hunted Geese Only	Hunted Both Ducks and Geese	Duck Hunters	Goose Hunters
1982	59.1%	11.1%	29.8%	88.9%	40.9%

1996–1999 were one day seasons and 2000 – present were 2-day seasons.

^aCould not hunt geese during the Youth Waterfowl Hunting Day in 1996 and 1997.

^bResults include youth hunts during the regular season and the 2-day Youth Waterfowl Hunting Days.

^cResults are a 2-day estimate based on the mean number harvested by youth from the entire season.

Table F-6. Summary of duck and coot harvest and hunter activity during the regular duck season (Illinois 1982-2022).

^aEstimates of duck hunters, days afield, ducks and coots harvested for these years have been reduced to 92.48% - 96.48% of the original estimates. See Anderson and Williamson (1994) for explanation.

^bNumbers in parentheses represent harvest of Canvasback.

Table F-7. Rates of duck harvest and hunter activity during the regular duck season (Illinois 1982-2022).

Season (Year)	Season Length/ Bag Limit ^b	Days Afield Per Hunter	Duck Harvest Per Hunter ^a	
			Per Day	Per Season

^aExcludes ducks harvested coincidentally while goose hunting.

^bThe Point System was used in 1981-1987 (Havera 1999: 17-18). A maximum of 10 ducks (4 mallards, 2 hens) was allowed in 1981-1984, and a maximum of 5 ducks (3 Mallards, 1 hen) was allowed in 1985-1987.

Table F-8. Number of hunters who participated in the early September Canada goose season (Illinois 1997-2022).

	Year	Statewide	Waterfowl Zone				Unknown

^aThe estimates of goose hunters and days hunted for these years have been reduced to 92.48%-96.48% of the original estimates. The estimates for geese harvested have not been reduced (Anderson and Williamson 1994).

^bReduced by 23,151 from estimate given in 2002 report to exclude Conservation Order snow goose harvest.

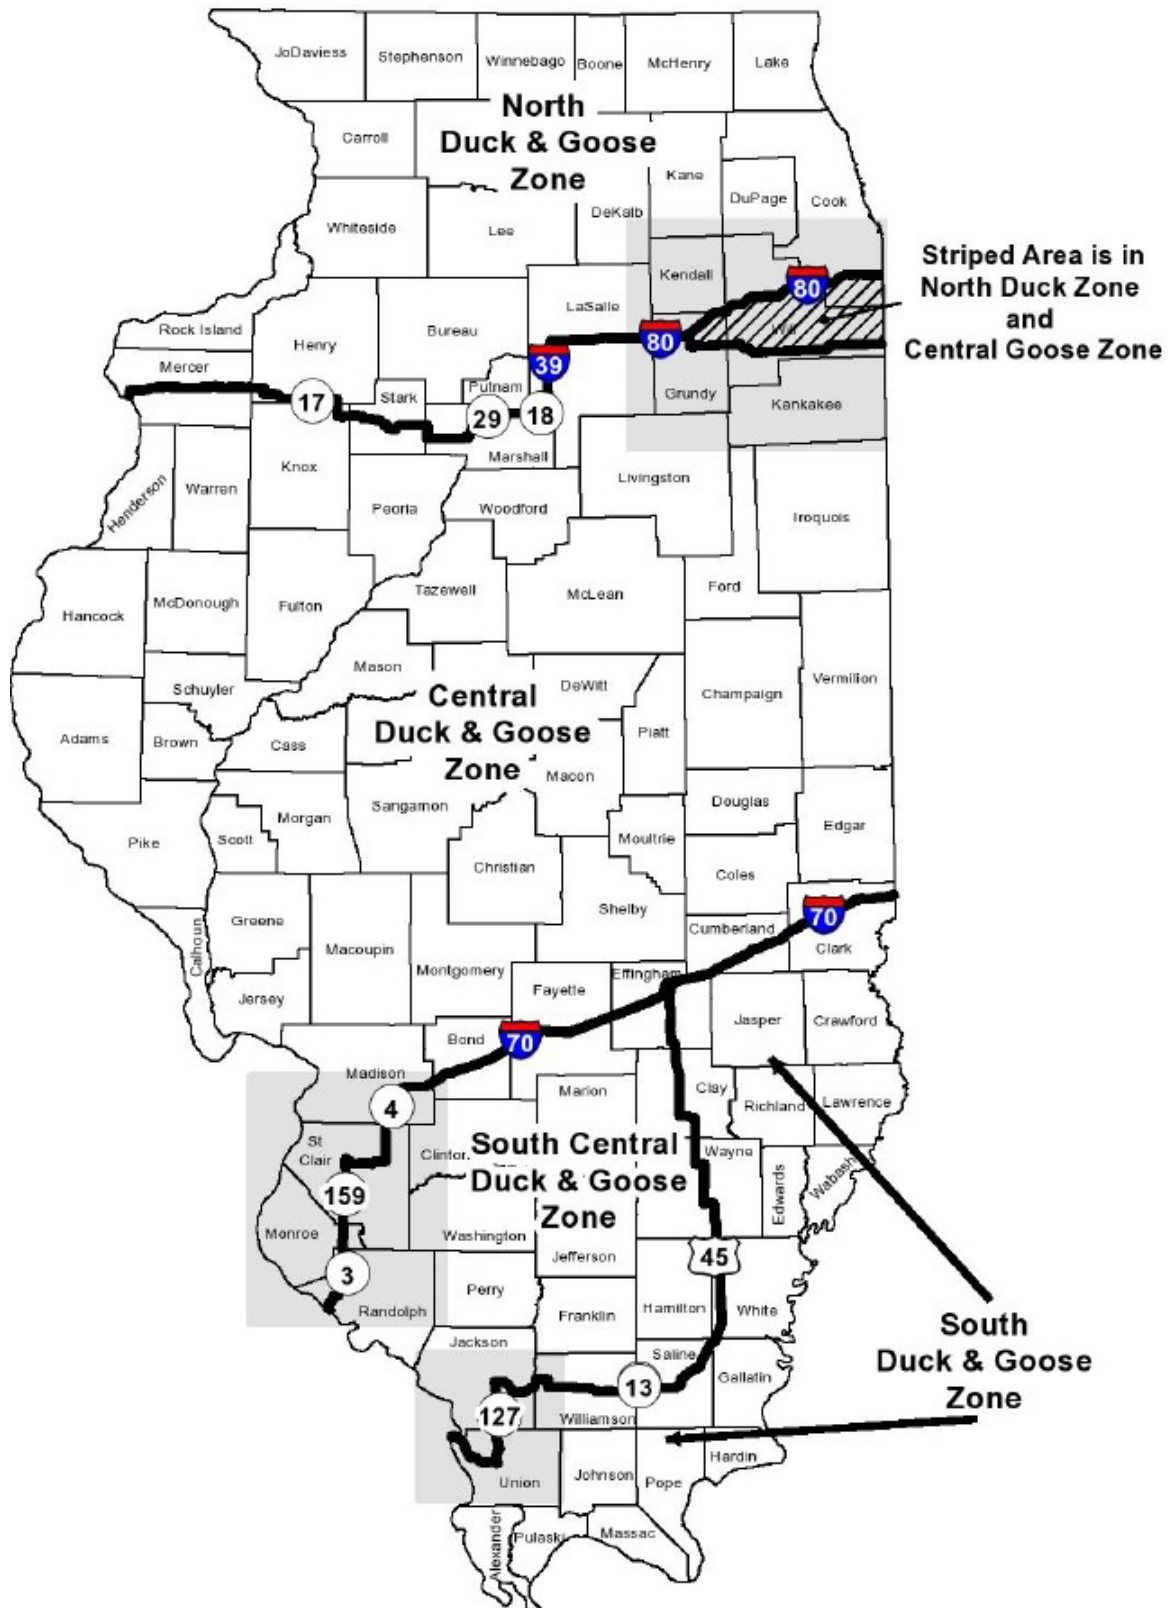

Table F-12. Summary of the number of ducks and geese crippled (Illinois 1982-2022 seasons).

Season (Year)	Estimated Ducks		Estimated Geese	
	Total	Per 100 Bagged	Total	Per 100 Bagged
1982	82,287	25.2	5,868	18.9
1983	96,907	24.0	7,627	23.6
1984	84,665	23.8	5,711	23.0
1985	100,191	31.6	15,918	39.5

2021	44,731	12.4	6,859	5.9
2022	35,320	11.2	7,378	6.3

^aThe estimates of ducks and geese crippled for these years have been reduced to 92.48% - 96.48% of the original estimates. The estimates for the number of geese crippled per 100 bagged have been similarly reduced. See Anderson and Williamson (1994) for explanation.

*Amended from 2012-13 report.

Appendix G

Appendix H

WATERFOWL SEASON DATES AND LIMITS							
SPECIES	ZONE	DATES (inclusive)	HOURS	DAILY LIMIT	POSSESSION LIMIT	ADDITIONAL REGULATIONS	
Teal (early season)	Statewide	10-25 Sep 2022	Sunrise to Sunset	6	18	Blue-winged teal, green-winged teal and cinnamon teal are the only legal duck species during this season. Daily and possession limits are for all teal species combined (in the aggregate).	
Rail (Sora and Virginia only)	Statewide	10 Sep - 18 Nov 2022		25	75	Daily and possession limits are for both rail species combined (in the aggregate).	
Snipe (Wilson's snipe)	Statewide	10 Sep - 25 Dec 2022		8	24		
Ducks (but see Scaup below)	North	22 Oct - 20 Dec 2022		6	18	Basic daily limit is 6 ducks of any species. However, daily limit can consist of no more than the following: 4 mallards (of which no more than 2 can be hen mallards), 3 wood ducks, 2 Scaup for the first 45 days in each zone, 1 Scaup for the last 15 days in each zone, 2 redheads, 2 canvasback, 2 black ducks, 1 pintail and 1 mottled duck. Possession limit for ducks is three times the daily limit by species and sex.	
	Central	29 Oct - 27 Dec 2022					
	South Central	12 Nov 2022 - 10 Jan 2023					
	South	3 Dec 2022 - 31 Jan 2023					
Mergansers	Same as ducks	Same as ducks		5	15	Mergansers do not count toward your daily limit of ducks, but only 2 can be hooded mergansers. Merganser possession limit is no more than three times their daily limit, including max of 6 hooded mergansers.	
Coots	Same as ducks	Same as ducks		15	45		
Scaup (Bluebills)	North	22 Oct - 5 Dec 2022 & 6 Dec - 20 Dec 2022	½ hour before sunrise to sunset	2/day First 45 days	First 45 days 6	FWS regulations require 45 days with 2/day bag limit, 15 days with 1/day bag limit. Dates will be different in each zone.	
	Central	29 Oct - 12 Dec 2022 & 13 Dec - 27 Dec 2022					
	South Central	12 Nov - 26 Dec 2022 & 27 Dec 2022 - 10 Jan 2023		1/day Last 15 days	Last 15 Days 3		
	South	3 Dec 2022 - 16 Jan 2023 & 17 Jan - 31 Jan 2023					

WATERFOWL HUNTING

WATERFOWL HUNTING

WATERFOWL SEASON DATES AND LIMITS						
SPECIES	ZONE	DATES (inclusive)	HOURS	DAILY LIMIT	POSSESSION LIMIT	ADDITIONAL REGULATIONS
Canada Geese (early season)	North and Central	1-15 Sep 2022		5	15	
	South Central and South			2	6	
Canada Geese	North	22 Oct 2022 - 19 Jan 2023		3	9	
	Central	29 Oct 2022 - 6 Nov 2022 & 12 Nov 2022 - 31 Jan 2023				
	South Central	12 Nov 2022 - 31 Jan 2023				
	South	3 Dec 2022 - 31 Jan 2023				
Light Geese (Snow/Blue/Ross' Geese)	North	22 Oct 2022 - 19 Jan 2023	½ hour before sunrise to sunset	20	Unlimited	Daily bag limit is for both species combined (in the aggregate).
	Central	29 Oct 2022 - 31 Jan 2023				
	South Central	12 Nov 2022 - 31 Jan 2023				
	South	3 Dec 2022 - 31 Jan 2023				
Brant	Same as light geese	Same as light geese		1	3	
White-fronted Geese (Specklebellies)	North	24 Oct 2022 - 19 Jan 2023		2	6	
	Central	5 Nov 2022 - 31 Jan 2023				
	South Central	12 Nov 2022 - 31 Jan 2023				
	South	3 Dec 2022 - 31 Jan 2023				
Conservation Order Light Geese (Snow/Blue/Ross' Geese)	North	20 Jan - 30 Apr 2023	½ hour before sunrise to ½ hour after sunset	Unlimited	Unlimited	The following apply to the Conservation Order only: 1) unplugged shotguns may be used and there is no limit to the number of shells that may be placed in a shotgun, 2) electronic calling devices may be used, 3) federal duck stamp not required, 4) Illinois duck stamp and hunting license is required.
	Central, South Central, South	1 Feb - 30 Apr 2023				
Youth Waterfowl	North	15-16 Oct 2022	½ hour before sunrise to sunset	Same as during regular duck, goose, and coot seasons	Same as during regular duck, goose, and coot seasons	The following apply to the Youth season only: 1) youth hunters must be 17 years of age or younger and have a hunting license and HIP registration/certification unless hunting on property they reside; 2) No stamps are required for youth under age 16; 3) Federal waterfowl stamps are required for all hunters age 16 and older; 4) hunters aged 18 years and older may not hunt waterfowl and/or coots during Youth Waterfowl Hunting Days, even if hunting with a Youth License.
	Central	22-23 Oct 2022				
	South Central	5-6 Nov 2022				
	South	26-27 Nov 2022
